BILL 41

A Bill to amend The Electric Power and Pipe Line
Assessment Act

HON. MR. HOOKE

Explanatory Note

1. Statutes of Alberta 1961, chapter 29, amended.

2. This redefinition is designed to clarify which properties are specifically assessable under the Act as distinguished from those properties located at a generating station which are assessable under The Assessment Act or The City Act as the case may be.

3. Section 4 (c) presently reads:

4. The following property is exempt from assessment under this or any other Act:

.....

(c) dams and the structures, dykes, weirs, floodgates, breakwaters, drains, ditches, basins, reservoirs, canals, tunnels, bridges, culverts, cribs, embankments, headworks, flumes, penstocks, aqueducts, devices and contrivances located at the dam and used in the operation of any such installations and to control water necessary for the generation or production of electric power, but not including the land whereon they are situated;

The purpose of this amendment is to exempt from assessment lands forming the site of those installations mentioned in clause (c) of section 4 unless such land is used for other purposes.
