(3) The Minister shall provide a copy of the report of the investigation to the person who requested the investigation within ninety days of the date of the request.

PART II

CAUSE OF ACTION

5(1) If an activity has contaminated or degraded, or is likely to contaminate or degrade, the environment, any person may commence an action in the Court against any person who is responsible for the activity.

(2) Subsection (1) applies without any requirement that the person commencing the action allege or establish that there has been, is or will be an infringement of an approval, permit, licence, standard, regulation, rule or order established by or under an Act listed in the Schedule.

(3) In an action commenced under this section, if the activity complained of is not governed by a standard established under an Act listed in the Schedule, the Court may hear evidence as to the standard, if any, that should apply to the defendant, having regard to the purposes of this Act, and the Court may order the defendant to comply with such standard as it may determine.

(4) If an activity has contaminated or degraded, or is likely to contaminate or degrade, the environment, any person may apply for judicial review of the exercise or non-exercise of any power or the fulfilment or non-fulfilment of any duty conferred or imposed by any Act on the Minister of the Environment or any other Minister responsible for regulatory, fiscal or proprietary control of the activity.

6(1) Any person may commence an action in the Court against

any person who appears to be in violation of any Act listed in the Schedule or of any approval, permit, licence, standard, regulation, rule or order established under an Act listed in the Schedule.

(2) No action under subsection (1) shall be commenced if the Crown is diligently pursuing enforcement action against the potential defendant.

(3) Damages awarded in an action commenced under this Part shall be paid to the Crown.

7 Any person may apply for judicial review under section 5(4) or may bring an action to enforce the public's responsibility to protect the environment, including an action in nuisance or an action under section 5.

8 In the trial of an action commenced under this Act, the Court shall not order the posting of security for costs in an amount in excess of \$1000.

9(1) If the Activity of the defendant that is the subject-matter of an action is not governed by a standard established under an Act listed in the Schedule or under section 5(3) and if the plaintiff has established that the activity of the defendant has contaminated or degraded, or is likely to contaminate or degrade, the quality of the environment, the onus shall be on the defendant to establish that there is no feasible and prudent alternative to the activity and that such activity is in the best interests of the public having regard to the purposes of this Act.

(2) It shall be a defence to an action commenced under this Act that the activity of the defendant is authorized by a standard established by or under an Act listed in the Schedule unless the plaintiff can establish, on a balance of probabilities, that the activity has caused, or is likely to cause, severe or irreparable contamination or degradation to the environment.

(3) It shall not be a defence to an action commenced under this Act that,

(a) the defendant is not the sole cause of the alleged or potential contamination or degradation; or

(b) it cannot be established that the contaminant which the defendant discharged or deposited or permitted to be discharged or deposited was the cause, in fact, of the contamination or degradation of the environment or the public trust therein, if the effect on the environment is of a nature consistent with the contaminant or source of degradation being

a cause.

10 In an action commenced under this Act, if it has been established that the activity of the defendant has contaminated or degraded, or is likely to contaminate or degrade, the environment, the Court may grant either an interim or permanent injunction, order the defendant to remedy any damage caused by the defendant's activity, award damages, impose conditions on the defendant or make such other order as the Court may consider is necessary.

11(1) The Court may, on the motion of any party or on its own motion, refer any question, except the final determination of the issue, to the Council and the Court may also grant an interim injunction or such other temporary relief as the Court considers necessary for the protection of the environment or the public trust therein pending final determination of the issue.

(2) When the Council has completed its review and consideration of the question referred to it under subsection (1), the Council shall make recommendations concerning the matter in question to the Court, and the Court shall review the recommendations and make such order as it considers appropriate under section 10.

12(1) In any action under this Act, the Court may appoint an expert, who shall be a disinterested person and qualified as an expert in the relevant field, to give technical and scientific testimony under oath.

(2) The Court may order that the costs of the expert be paid in such manner and by such persons as the Court considers appropriate.

PART III

CLASS ACTIONS

13(1) In an action under this Act, the Court may by order permit one or more persons to act as representatives of a class of persons if, in the opinion of the Court,

(a) a question arises in the proceeding that is common to each member of the class;

(b) the material facts giving rise to the claim for relief of the representatives are similar or related to the material facts giving rise to a claim for relief of the members of the class; and

(c) the representatives are acting in good faith and in the interests of the class.

(2) For the purposes of clause (1)(b), material facts relating to different transactions or events or contracts shall not be taken to be dissimilar or unrelated for that reason alone.

(3) The Court may provide in the judgment of a class action for subsequent determination of the amount and distribution of damages assessed against the defendant.

(4) If damages payable to members of the class remain uncollected for more than 120 days after payment by the defendant into the Court, the amount of the uncollected damages shall be applied in such manner as the Court may order.

(14) Upon the completion of the hearing, the appropriate board may make such recommendation, order or decision in respect of the matter referred to it under this section as the appropriate board is empowered to make under its enabling Act.
