- (b) whether the recovery strategy would provide benefits for multiple species,
- (c) the effect upon landowners and other persons of designating a species as threatened or endangered,
- (d) the public and private costs of achieving recovery, and
- (e) the need to use recovery strategies for different species under different circumstances and in different regions of Alberta.

(2) A permit, approval or other authorization granted pursuant to section 11 shall prevail over any other statutory plan, land use bylaw, subdivision decision or development decision by a subdivision authority, subdivision and development appeal board or the Municipal Government Board.
