and all the assessments thereby imposed or authorized to be imposed, and each and every of them are hereby validated and confirmed and declared to be legal, valid and binding upon the City of Edmonton and the ratepayers or burgesses thereof affected thereby, and the same shall not be open to question in any court on any ground whatsoever; and all debentures and the coupons attached thereto, issued or to be issued or purporting to be issued under the same or any of them, are hereby declared to be issued on the credit and security of the municipality at large and are hereby declared to be legal, valid and binding upon the City of Edmonton and the ratepayers or burgesses thereof, and the same shall not be open to question in any court on any ground whatsoever.

**15.** Whereas the City of Edmonton has heretofore passed the respective by-laws, on the respective dates, authorizing the issue of debentures to the respective amounts for the respective purposes, bearing the respective dates and rates

of interest, and maturing in the respective number of years, as set forth in the schedule to this Act; and

Whereas each of said by-laws provided that there should be raised annually during the currency of the said debentures issued thereunder by a special rate sufficient therefor over and above all other rates on all the ratable property in the municipality an amount sufficient to pay the annual interest on the said debentures and an amount for sinking fund sufficient with accumulated interest thereon to meet the principal of said debentures at the maturity thereof; and

Whereas the city acting or purporting to act pursuant to section 20 of chapter 90 of the Statutes of Alberta, 1922, and to By-law No. 46 of 1922, re-numbered No. 2 of 1923, passed 8th January, 1923, reduced the annual sinking fund levies in respect of each of said issues of debentures commencing with the year 1923 to such an amount as would, together with the sinking fund on hand to the credit of each of said issues of debentures and together with the accumulated interest on said sinking fund on hand and on said reduced levies for sinking fund, be sufficient to meet the principal amount of each of said issues of debentures within the certain period of years beyond the actual maturity of each of said issues of debentures as more particularly provided in said By-law No. 2 of 1923; and

Whereas none of said debentures have been issued for the purpose of paying the cost of local improvements other than the city's share thereof; and

Whereas no debentures have been issued by the city pursuant to said section 20 of chapter 90 of the Statutes of Alberta, 1922, and said By-law No. 2 of 1923; and

Whereas it is desirable to make further provision for the repayment at maturity of the debentures referred to in the said schedule:

1. Section 20 of chapter 90 of the Statutes of Alberta, 1922, and By-law No. 46, 1922, re-numbered No. 2, 1923, of the City of Edmonton, passed 8th January, 1923, are hereby repealed, except as to the reduction made and authorized by the city in the annual levies for sinking fund in respect of the debentures referred to in the schedule to said By-law No. 2 of 1923, and such reduced annual levies for sinking fund are hereby confirmed and validated.

2. During the currency of the debentures issued under the respective by-laws referred to in the schedule to this Act the city shall levy and raise in each year by a special rate sufficient therefor over and above all other rates on all the ratable property in the municipality the respective amounts required to pay the interest falling due on such debentures in such year.

3. During the currency of said debentures the city shall levy and raise in each year in manner aforesaid in respect of each of said issues of debentures the reduced sinking fund

authorized and provided by said By-law No. 2 of 1923, provided that at any time with the approval of the Board of Public Utility Commissioners the city may by by-law reduce or increase the amount of such reduced annual sinking fund in respect of any or all of said issues of debentures.

4. All sinking funds on hand in respect of any of said issues of debentures at the date of passage of said By-law No. 2 of 1923, and all accumulated interest thereon and all sinking fund levied in respect of each such issue of debentures subsequent to the passage of said By-law No. 2 of 1923 and the accumulated interest thereon shall be held for and applied to the repayment of the said debentures respectively at the maturity thereof and the city shall raise the remaining monies necessary for such repayment in full and may from time to time and at any time before the respective maturities of said debentures authorize the issue and sale of new debentures to such respective amounts as the council may estimate to be necessary, after payment of discount and other expenses in connection with the issue and sale of such new debentures, to realize the net sum required after the application of the accumulated sinking fund available therefor to repay one or more of the said respective issues of debentures as the same respectively mature. The said net sum realized from the issue and sale of said new debentures shall be applied for the purpose aforesaid and for no other purpose.

5. Such new debentures may bear such date, carry such rate of interest, be payable at such place or places and in such monies and upon such terms and conditions and mature within such period not exceeding thirty years from the date thereof as the city may determine at the time of issuing said debentures and the by-laws authorizing the issue of such new debentures shall provide for raising in each year during the currency thereof upon all the ratable property in the municipality a sum sufficient to pay the annual interest on such new debentures and a sum for sinking fund which, together with accumulated interest thereon compounded annually at a rate not exceeding four and one-half per centum per annum, will be sufficient to retire such new debentures at their maturity.

6. Whenever the sale of the new debentures produces more than the net sum required for the purpose aforesaid, the excess amount so realized shall form part of the general funds of the city, and whenever the sale of the new debentures produces less than the net sum required for the purpose aforesaid the city may issue and sell further new debentures to such amount as the council may deem necessary to realize the deficiency.

7. Pending the sale of such new debentures the city may borrow from any bank or person upon promissory notes, temporary debentures or other temporary securities by way of temporary loan for not more than one year, the monies

necessary, together with such accumulated sinking fund available therefor to pay off at maturity any one or more issues of said debentures, and the city may in manner aforesaid issue and sell new debentures to the amount the council may estimate to be necessary to realize the net sum required for the purpose of repaying the said temporary loan and redeeming said temporary securities issued therefor, and such net sum shall be used solely for such purpose; or pending the sale of such new debentures the city may borrow the monies required as aforesaid by way of loan for not more than one year on such new debentures in such manner and on such terms and conditions as may be deemed expedient and may deposit, hypothecate or charge such new debentures as security for any such loan and may enter into any agreement for the purpose of carrying out the terms and conditions of such loan as may be deemed expedient, and when such loan has been paid off and the pledge redeemed the said new debentures may be re-issued and sold or pledged as if the former pledging had not taken place.

8. Notwithstanding anything herein contained the city may issue and sell new debentures for the purpose of realizing the net sum required to recoup the monies applied by the city out of funds in its hands for the purpose of repaying the debentures of the city referred to in said schedule which matured in the year 1929.

9. A recital in any by-law of the amount of sinking fund available for the repayment of the maturing debentures referred to in such by-law shall be conclusive evidence of the fact.

10. Debentures issued and debts contracted by the city pursuant to the provisions of this Act shall not form part of the debt of the city within the meaning of the sections of *The Edmonton Charter* limiting the borrowing powers of the city, and it shall not be necessary to obtain the assent of the electors to any by-law passed by the council of the city pursuant to the authority contained in this Act either for borrowing money or for any other purpose.

11. All payments heretofore made out of the general funds of the city together with accumulated sinking funds on hand to repay any of the debentures referred to in said By-law No. 2 of 1923 are hereby confirmed and validated.

**16.** This Act shall come into force on the day upon which it is assented to.
