In TESTIMONY WHEREOF WE have caused these Our Letters to be made Patent, and the Great Seal of Our Province to be hereunto affixed.

WITNESS: The Honourable J. PERCY PAGE, Lieutenant Governor of Our Province of Alberta, in Our City of Edmonton, in Our Province of Alberta, this 19th day of November, in the year of Our Lord One Thousand nine hundred and sixty-four and in the Thirteenth Year of Our Reign.

BY COMMAND:

A. HOLOWACH,
Provincial Secretary.

Mr. Speaker entered the Assembly and took the Chair.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

MR. SPEAKER AND MEMBERS OF THE
LEGISLATIVE ASSEMBLY:

It is my privilege and pleasure to welcome you to the Second Session of the Fifteenth Legislature of the Province of Alberta.

Two weeks ago our province was shocked and saddened by the sudden tragic accidental death of the Honourable Norman A. Willmore. Mr. Willmore gave many years of faithful public service to the people of Alberta and was a capable and conscientious minister of the Crown. On behalf of all our citizens, I wish to pay tribute to his memory and express deepest sympathy to Mrs. Willmore and to all members of the family.

It also is appropriate on this occasion that we should voice the heartfelt sorrow of all our people in the loss humanity has sustained through the recent death of Sir Winston Churchill. His indomitable spirit and courageous leadership will remain for all time a challenge and inspiration to each new generation.

During this session, you will be called upon to deal with a substantial number of proposals designed by my government to further enhance the good and welfare of the citizens of Alberta and to ensure continued economic development and social progress in all phases of provincial affairs.

Having regard to the national political instability and the gravity of the many issues which remain to be solved in the field of international affairs, you will, I am confident, apply your-

selves to your tasks with a deep sense of responsibility and a firm resolve to give statesmanlike leadership in discharging the duties assigned to you by the citizens of this province. I pray that Divine Providence will guide and direct your deliberations.

During the past year, unanimous agreement was reached between the Government of Canada and the governments of all the provinces on a procedure to domicile The British North America Act in Canada and on a formula for the enactment of future amendments to the Act without reference to the Parliament of Great Britain. A resolution approving this historic recommendation, which my government believes is in keeping with Canada's status as a sovereign nation within the Commonwealth, will be introduced early in the session.

Throughout 1964, Alberta's economy remained buoyant and practically all phases recorded substantial gains. Natural resources development continued as a major factor in our economic growth. The value of mineral production increased by more than ten per cent over the previous year. Natural gas production, which in 1955 was valued at eight million dollars, will exceed one hundred million dollars in 1965.

Farm income for the first six months of 1964 was approximately twenty-five per cent higher than for the same period the previous year due, mainly, to increased sales of wheat on the export market.

Various agricultural services will be enlarged and improved and you will be asked to approve the increased appropriations necessary for such expansion.

My government will submit plans for your approval to permit Alberta to participate in the International Hydrologic Decade while additional studies on irrigation and drainage problems will be continued from which more efficient and improved programs will be developed.

An agricultural and biological laboratory will be established to consolidate services now carried on by various branches to permit greater efficiency in providing such services in the interests of the agriculture industry.

An expanded ARDA program will be carried out under a new agreement with the Government of Canada.

Amendments to various statutes affecting agriculture will be submitted for your consideration, including The Marketing of Agricultural Products Act. Statutory provision will be made to afford municipal districts and counties a greater measure of participation in local programs affecting agriculture.

My government's special Survey Committee on Higher Education will table a further interim report during the present session. The committee will continue its study of the complex problem of how best to meet the ever growing educational needs, having regard to the factors of service, cost, type of institutions, and population distribution.

Plans for further expansion at the Southern and Northern Institutes of Technology are well advanced and will be implemented during the ensuing year.

Special attention will be given to the provision of training which will upgrade the academic background and technical skills of unemployed and other workmen desirous of taking advantage of this opportunity.

The special committee, established by the University Board of Governors to recommend the most desirable form of administration applicable to both the Calgary and Edmonton campuses of the University of Alberta, will not complete its work in time to make specific recommendations for a new University Act during this session. Only such amendments as are necessary to meet interim requirements will be submitted, pending the introduction of a new University Act at the 1966 session.

A number of important matters relating to public health will be presented for your consideration. It is proposed to extend the benefits under the Alberta hospital plan to include out-patient service at hospitals throughout the province. This will provide diagnostic and emergency treatment services and will help reduce the demand on in-patient service, thereby freeing more hospital facilities for those requiring in-patient care.

Alberta's subsidized medical services insurance plan has completed successfully its first year of operation. The soundness of the principles upon which the plan is based has been demonstrated and similar plans are now being adopted by other provinces. During the ensuing year the plan will be examined carefully in the light of the experience gained to determine what further improvements and extensions of benefits are desirable to ensure maximum coverage at costs within the financial reach of all citizens.

A new program to provide improved and additional health services to isolated areas of northern Alberta will be submitted for your approval.

You will be asked to establish a combined legislative and public committee to make a thorough study of existing preventive health services and report at the next session of the Legislature with recommendations for improved services and better utilization of professional personnel.

A careful study is being made of the needs for new mental hospital facilities in the southern part of Alberta. Plans will be prepared during the ensuing year for a new 300 to 400-bed mental health hospital clinic to be built at the Foothills site in Calgary.

My government has inaugurated a program of community development to assist our native people of Indian ancestry to improve their social and economic position. The Federal Government has subsequently agreed to join with the province in this effort. An expanded program in this field will be outlined during the ensuing year. You also will be asked to approve an

amendment to The Alberta Election Act extending to Indians, as defined in the federal Indian Act, the right to vote in provincial elections.

The construction of five senior citizen's homes during the ensuing year will complete the government's original undertaking to provide accommodation for 4,000 senior citizens. As the need arises, provision will be made for the construction of additional units.

A special committee has been appointed under The Child Welfare Act to make a thorough investigation into present adoption legislation, procedures and practises, and to make recommendations for the future guidance of the Legislature. Only such interim amendments to The Child Welfare Act as are necessary will be submitted at this session with a complete revision to be undertaken following the receipt of the committee's recommendations.

To reduce the number of persons remaining for a long period of time on public welfare, special attention will be given to developing programs designed to prevent welfare dependency and to assist in the rehabilitation of welfare recipients.

An interim report by the Public Expenditures and Revenue Study Committee, appointed in November 1963, will be tabled for your perusal. The committee's final report will be submitted prior to the next session of the Legislature.

To implement an alteration in the income tax collection agreement with the Government of Canada allocating a larger share of personal income tax to the province, amendments to The Alberta Income Tax Act will be introduced.

Amendments to The Alberta Investment Fund Act and The Alberta Municipal Finance Corporation Act also will be submitted for your consideration.

A new act to provide an alternative procedure to private bills for obtaining exemptions from municipal assessment and taxation of property of non-profit, charitable, religious, educational, or welfare organizations, will be recommended for your approval.

A complete revision of The Housing Act will be proposed to conform to extensive amendments recently made by the Parliament of Canada to The National Housing Act.

Amendments to assessment legislation will be submitted to provide an exemption from assessment of buildings and improvements of manufacturing processing concerns until construction is completed and the plant is in operation.

Amendments to The Forests Act 1961 to allow established timber operators to secure supplies of timber at an assessed value will be introduced. Allotments of timber in each forest management unit will be governed by sustained yield under controlled forest management.

In view of changes in land administration policies, a revision of The Public Lands Act will be submitted for your approval.

A progressive program to expand and improve provincial parks will be recommended to keep pace with public demand.

You will be asked to approve the establishment of a special legislative committee to study the problems confronting commercial fisheries and to make recommendations for the solution of these problems.

Having regard to the increasing importance of northern resources and northern community development, my government has approved a comprehensive program, recommended by the Northern Development Council, to accelerate the construction of roads, air strips and such other facilities as are required to service existing communities and open new areas of development. This program will include a pilot project under which new land to be opened for settlement will first be provided with roads and other essential facilities and services.

The first commercial development of the Fort McMurray oil sands will give substantial impetus to northern industrial growth during the ensuing year with total expenditures in excess of two hundred million dollars being committed for the construction of plant, bridges, town sites and other auxiliary development. Supplementing this large scale industrial development in northeastern Alberta, my government believes that far reaching additional economic benefits would accrue if the resource areas in the western portion of the province north of the Canadian National mainline were served by rail transportation linking those areas with the existing Canadian National Railway outlets to seaboard. You will be asked to provide legislation under which my government can assure that such facilities will be provided.

A multi-purpose pilot plant will be constructed during the ensuing year for the Research Council of Alberta in the Clover Bar area, supplementing the laboratory facilities already available at the new Research Council building adjacent to the University campus. The new plant will be available for the investigation of new industrial processes and manufacturing techniques and already has been leased for private research of recently developed iron ore refining processes.

A comprehensive highway program will be submitted for your consideration and will include substantial grants for the construction and upgrading of roads in municipalities and local improvement districts. Safety factors in highway construction and in the control of highway traffic will continue to receive high priority.

The Legislative Committee, established at the last session to review The Workmen's Compensation Act, will submit its report during the present session, together with its recommendations for such amendments as it deems to be in the public interest.

The committee appointed by the Legislature last year to review procedures for collective bargaining between school trustees and teachers will submit its report for your consideration.

A substantial reorganization of the provincial penal system has been carried out and a program to improve present facilities and provide necessary new institutions will be undertaken during 1965. These projects include: construction of a new provincial jail at Peace River; improvements to the Calgary and Fort Saskatchewan jails and also to the institutions at Bowden and Belmont. The program of forestry camps for prison inmates has proven successful and will be expanded during the ensuing year.

The Department of Public Works will submit an extensive program for new construction at the University campuses in Edmonton and Calgary together with recommendations for numerous public buildings throughout the province to meet the need of Alberta's expanding population. Contracts for this program will be let progressively throughout the year to provide a proportionate amount of winter employment.

An expanded program of assistance to Rural Mutual Telephone Companies will be carried out by Alberta Government Telephones to improve standards in this field of communications. To this end, amendments to legislation under the Alberta Government Telephone Commission will be submitted for your consideration.

The Public Accounts for the last fiscal year and the Estimates of revenues and expenditures for the ensuing year will be submitted for your careful scrutiny and approval.

I leave you now to the business of this session with full confidence that you will discharge your responsibilities in a manner that will justify the trust imposed in you by the citizens of Alberta.

Mr. Gainer asked the Government the following question of which he had given notice and which was answered by the Hon. Mr. Manning:

Q. As reported in the Calgary Herald, October 2, 1964, the Premier, Mr. Manning, proposed establishment of a joint Economic Council of the three Prairie Provinces which would enable the Council to co-operate in decentralizing industry from major centers in each province.

What progress or further discussion has enabled the prospect of this suggestion to bear fruition?

A. Nothing further can be added to the statement I made on this subject when speaking on the motion for a reply to the Speech from the Throne.

Mr. Gainer asked the Government the following question of which he had given notice and which was answered by the Hon. Mr. Patrick:

Q. It was reported in Expo Digest issue of October 21, 1964, that the Provinces, Alberta, Saskatchewan, Manitoba and British Columbia had decided on a joint pavilion at the 1967 Exposition in Montreal.

Q. 1. What has been decided in this undertaking?

A. 1. The four western Provinces have agreed to participate together in a joint display at the 1967 World Exhibition at Montreal.

Q. 2. What progress has been made re division of costs and how?

A. 2. Proposals as to nature and design of the display made by Opus International Ltd., of Toronto, have been accepted by the four provinces. The \$900,000.00 exhibit will portray the resources, development and cultural achievements of the western provinces as a geographical entity rather than by provinces or political division.

Costs of construction, operation and demolition are on the basis of:

Alberta	\$250,000.00
B. C.	250,000.00
Manitoba	200,000.00
Sask.	200,000.00
	<hr/>
	\$900,000.00

Construction will start as soon as spring conditions prevail and therefore dead-lines will have been met.

The western display will take the general form of two buildings. One will feature more than a dozen smaller displays portraying the various resource materials of the west and their development. The second structure will be an activity building in which will be presented cultural and social developments of Western Canadians.

13. L'Acte de l'Amérique du Nord britannique (1867) est modifié en attribuant à l'article 94A le numéro 94B et en insérant, immédiatement après l'article 94, la rubrique et l'article suivants :

Délégation du pouvoir législatif

"94A. (1) Nonobstant toute disposition du présent Acte ou de toute autre loi, le Parlement du Canada peut édicter des lois relatives à toute matière comprise dans les sujets énumérés aux catégories (6), (10), (13) et (16) de l'article 92 du présent acte, mais nulle loi édictée en vertu du présent paragraphe n'aura d'effet dans une province à moins que la législature de cette dernière n'ait consenti à la mise en vigueur d'une telle loi dans cette province.

(2) Le paragraphe (1) du présent article n'autorise pas le Parlement du Canada à édicter une loi sauf

- a) si antérieurement à l'adoption de cette loi les législatures d'au moins quatre provinces ont consenti à la mise en vigueur d'une telle loi de la façon prévue à ce paragraphe, ou
- b) si le Parlement du Canada a déclaré que le gouvernement du Canada a consulté les gouvernements de toutes les provinces et que l'adoption de la loi intéresse moins de quatre provinces et les provinces ainsi déclarées intéressées ont, sous l'autorité de leur législature, consenti à l'adoption d'une telle loi.

(3) Nonobstant toute disposition du présent Acte ou de toute autre loi, la législature d'une province peut édicter des lois y applicables portant sur toute matière qui est du ressort législatif du Parlement du Canada.

(4) Nulle loi édictée par une province en vertu du paragraphe (3) du présent article n'aura d'effet à moins

- a) qu'antérieurement à son adoption le Parlement du Canada n'ait consenti à l'adoption d'une telle loi par la législature de cette province, et

(6) Un consentement donné suivant le présent article peut être révoqué en tout temps, et

- a) si un consentement donné suivant le paragraphe (1) ou (2) du présent article est révoqué, toute loi édictée par le Parlement du Canada, à laquelle ce consentement se rattache et qui est en vigueur dans la province où le consentement est révoqué, cesse dès lors d'y avoir effet, mais la révocation n'empêche pas l'application de cette loi dans toute autre province, et
- b) si un consentement donné suivant le paragraphe (4) du présent article est révoqué, toute loi qui a été édictée par la législature d'une province et à laquelle ce consentement se rattache cesse dès lors d'avoir effet.

(7) Le Parlement du Canada peut abroger toute loi qu'il a édictée en vertu du présent article, dans la mesure où elle fait partie des lois d'une ou de plusieurs provinces, mais si une abrogation faite en vertu du présent paragraphe ne vise pas toutes les provinces où cette loi est en vigueur, l'abrogation ne porte pas atteinte à l'application de cette loi dans une province non visée par l'abrogation.

(8) La législature d'une province peut abroger toute loi qu'elle a édictée en vertu du présent article, mais l'abrogation d'une loi en vertu du présent paragraphe ne porte pas atteinte à l'application dans une autre province d'une loi que sa législature a édictée en vertu du présent article."

CONSIDERANT que le Canada a demandé que soit établie une loi du Parlement du Royaume-Uni dans les termes ci-après énoncés, et a consenti à l'établissement d'une telle loi, et que le Sénat et la Chambre des communes du Canada, assemblés en Parlement, ont présenté des adresses à Sa Majesté, lui demandant de daigner faire soumettre un projet de loi au Parlement du Royaume-Uni à cette fin ;

A ces causes, Sa Très Excellente Majesté la Reine, sur l'avis et du consentement des Lords spirituels et temporels et des Communes, réunis en session du présent Parlement, et sur l'autorité de celui-ci décrète :

Première partie

Pouvoir de modifier la constitution du Canada

12. La catégorie 1 de l'article 91 de l'Acte de l'Amérique du Nord britannique (1867), édictée par l'Acte de l'Amérique du Nord britannique (No 2) (1949), et la catégorie 1 de l'article 92 de l'Acte de l'Amérique du Nord britannique (1867) sont abrogées.

13. L'Acte de l'Amérique du Nord britannique (1867) est modifié en attribuant à l'article 94A le numéro 94B et en insérant, immédiatement après l'article 94, la rubrique et l'article suivants :

Délégation du pouvoir législatif

"94A. (1) Nonobstant toute disposition du présent Acte ou de toute autre loi, le Parlement du Canada peut édicter des lois relatives à toute matière comprise dans les sujets énumérés aux catégories (6), (10), (13) et (16) de l'article 92 du présent acte, mais nulle loi édictée en vertu du présent paragraphe n'aura d'effet dans une province à moins que la législature de cette dernière n'ait consenti à la mise en vigueur d'une telle loi dans cette province.

(2) Le paragraphe (1) du présent article n'autorise pas le Parlement du Canada à édicter une loi sauf

- a) si antérieurement à l'adoption de cette loi les législatures d'au moins quatre provinces ont consenti à la mise en vigueur d'une telle loi de la façon prévue à ce paragraphe, ou
- b) si le Parlement du Canada a déclaré que le gouvernement du Canada a consulté les gouvernements de toutes les provinces et que l'adoption de la loi intéresse moins de quatre provinces et les provinces ainsi déclarées intéressées ont, sous l'autorité de leur législature, consenti à l'adoption d'une telle loi.

(3) Nonobstant toute disposition du présent Acte ou de toute autre loi, la législature d'une province peut édicter des lois y applicables portant sur toute matière qui est du ressort législatif du Parlement du Canada.

(4) Nulle loi édictée par une province en vertu du paragraphe (3) du présent article n'aura d'effet à moins

- a) qu'antérieurement à son adoption le Parlement du Canada n'ait consenti à l'adoption d'une telle loi par la législature de cette province, et
- b) qu'une loi semblable n'ait été édictée en vertu du paragraphe (3) du présent article par les législatures d'au moins trois autres provinces.

(6) Un consentement donné suivant le présent article peut être révoqué en tout temps, et

- a) si un consentement donné suivant le paragraphe (1) ou (2) du présent article est révoqué, toute loi édictée par le Parlement du Canada, à laquelle ce consentement se rattache et qui est en vigueur dans la province où le consentement est révoqué, cesse dès lors d'y avoir effet, mais la révocation n'empêche pas l'application de cette loi dans toute autre province, et
- b) si un consentement donné suivant le paragraphe (4) du présent article est révoqué, toute loi qui a été édictée par la législature d'une province et à laquelle ce consentement se rattache cesse dès lors d'avoir effet.

(7) Le Parlement du Canada peut abroger toute loi qu'il a édictée en vertu du présent article, dans la mesure où elle fait partie des lois d'une ou de plusieurs provinces, mais si une abrogation faite en vertu du présent paragraphe ne vise pas toutes les provinces où cette loi est en vigueur, l'abrogation ne porte pas atteinte à l'application de cette loi dans une province non visée par l'abrogation.

(8) La législature d'une province peut abroger toute loi qu'elle a édictée en vertu du présent article, mais l'abrogation d'une loi en vertu du présent paragraphe ne porte pas atteinte à l'application dans une autre province d'une loi que sa législature a édictée en vertu du présent article."

That an Order of the Assembly do issue for a Return showing:

1. Did the Honourable Premier issue the following statement on or about August 7, 1964.

"I feel the public should be made aware of certain reprehensible tactics pursued by a small group of men in Edmonton whose avowed objective is to discredit the present government of Alberta and destroy the reputation of individual ministers.

"An incident typical of their tactics occurred on Thursday, July 30, when a cabinet minister was enticed by a devious procedure to the home of one of this clique and there pressured to divulge any information he might have that would be damaging to his colleagues and the government, under threat that if he refused to comply, his reputation would be endangered and his position to public life made untenable.

"They acknowledge their tactics already had included having the minister followed by a private detective. When the minister made it clear he had no idea what they were talking about, he was told if he would not co-operate their plan would proceed.

"It was made clear their objective is to destroy the government and the tactics cited indicate the lengths they are prepared to go to achieve their ends. The appropriate authorities have been made aware of their activities but I feel the public also has a right to know these facts so that innocent people will not be misled by or become involved in the activities of this group.

"It has always been the government's position that anyone having any valid complaint against a minister or member of the public service need only submit the same with substantiating evidence and the matter will be properly and promptly dealt with.

"All the government asks is that this procedure be followed by this group, who thus far, have resorted only to vague insinuations without being specific and without producing any proof."

2. If foregoing statement was made by the Honourable Premier then an Order of the House do issue for a copy of all briefs, reports, correspondence and memorandums prepared by the Department of the Attorney General dealing with the aforementioned statement or the incident referred to therein.

The motion was agreed to.

Moved by Mr. Gainer, seconded by Mr. Dickie :

Whereas the office of an ombudsman has proved eminently successful in assisting governments, civil servants and the ordinary layman in adjusting complaints, investigating abuses of power by Government Departments or its employees.

And whereas fundamentally the appointment of an ombudsman was found necessary in those countries where there

was an evident abuse of Civil Rights and no intermediary to plead on behalf of the common man.

And whereas such an officer appointed by the Government could greatly assist an opposition by narrowing the imbalance where the Government had a preponderance of members ;

Be it Resolved that this Government give favourable consideration to the appointment of an ombudsman for the Province of Alberta.

A debate followed.

Mr. Maccagno moved the adjournment of the debate which was agreed to.

The Order of the Day being read for the continued debate on the following motion.

Moved by Mr. Patterson; Seconded by Mrs. Wood:

Whereas more and more people feel that some provision should be made for additional pheasant hunting facilities;

Whereas this can be provided without infringing on our present hunting privileges or in any way disturbing our natural species ;

Whereas many urban people would like to have shooting available without travelling long distances;

Therefore be it Resolved that we urge the Government to consider permitting the establishment of Commercial Pheasant Shooting areas.

And whereas the naming of an appropriate Island of this Province in his honour would be a fitting and proper symbol of our gratitude and would bring to the attention of the people

of Alberta in a meaningful manner the ever inspiring words of Sir Winston Churchill

And whereas the natural and splendid beauty of an appropriate Island would be a continuing and self renewing commemoration of Sir Winston Churchill;

Therefore be it Resolved that this Assembly give favourable consideration to the naming and development of an Island Provincial Park in our Province "The Winston Churchill Island Park" and dedicating it to the use of the people of Alberta for their benefit, education and enjoyment and to ever remind them of the indomitable and courageous spirit and moral leadership of the late Sir Winston Churchill.
