THIRD SESSION

SEVENTEENTH LEGISLATURE

---

THURSDAY, MARCH 7, 1974

This being the First Day of the Third Session of the Seventeenth Legislative Assembly of the Province of Alberta, for the despatch of business pursuant to a Proclamation of His Honour the Honourable J. W. Grant MacEwan, Lieutenant Governor, dated the thirteenth day of February, in the year of our Lord, one thousand nine hundred and seventy-four;

The Clerk of the Legislative Assembly read the Proclamation as follows:

**PROCLAMATION**

---

[GREAT SEAL]  
CANADA  
PROVINCE OF ALBERTA

GRANT MacEWAN,  
Lieutenant Governor.

ELIZABETH THE SECOND, by the Grace of God, of the United Kingdom, Canada and Her other Realms and Territories, Queen, Head of the Commonwealth, Defender of the Faith.

PROCLAMATION

TO OUR FAITHFUL, the MEMBERS elected to serve in the Legislative Assembly of Our Province of Alberta and to each and every of you, GREETING . . .

W. F. McLEAN,  
*Deputy Attorney General.*

WHEREAS it is deemed expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Alberta, WE DO WILL that you and each of you, and all others in this behalf interested, on THURSDAY, the SEVENTH day of MARCH, A.D. 1974, at the hour of THREE o'clock in the afternoon, at our city of Edmonton,

personally be and appear for the despatch of business, to treat, act, do and conclude upon those things which, in the Legislature of Our Province of Alberta, by the Common Council of Our said Province, may, by the favour of God, be ordained.

HEREIN FAIL NOT

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent, and the Great Seal of Our Province to be hereunto affixed.

WITNESS: The Honourable J. W. Grant MacEWAN, Lieutenant Governor of Our Province of Alberta, in Our City of Edmonton, in Our Province of Alberta, this 13th day of February, in the Year of Our Lord, One Thousand, Nine Hundred and Seventy-four and in the Twenty-third Year of Our Reign.

BY COMMAND:

MERV LEITCH,  
*Provincial Secretary.*

Mr. Speaker entered the Assembly and took the Chair.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne.

#### **SPEECH FROM THE THRONE**

MR. SPEAKER, AND MEMBERS OF THE  
LEGISLATIVE ASSEMBLY:

I have the honour to welcome you to the Third Session of the Seventeenth Legislature of the Province of Alberta.

The first two phases of my government's administration were primarily directed towards remedying certain basic social inequities. These priorities were to assist our senior citizens, the handicapped, the mentally ill, and those working to preserve that basic cornerstone of our society — the family farm. Of special priority was the Alberta Bill of Rights and the Individual Rights Protection Act. The Alberta Human Rights Commission is now in full operation. Its members seek the support of all citizens in eliminating discrimination against minority groups. My government will continue to be alert to the needs of those Albertans less fortunate than the general public.

The third phase of my government's administration is well under way — in part its emphasis is to effectively implement the wide-ranging new programs of reform and innovation enacted and announced since September 1971. Amendments to simplify and refine previous legislation will maximize benefits for our citizens and minimize problems of administration and delivery of services. Also, phase three will include significant follow-up steps to the phase one and phase two social program priorities. Because Alberta is Canada's energy province, phase three will see further measures and actions to reflect our unique position and special responsibilities in energy matters.

Phase three will see contemporary government initiatives, in cooperation with the Cities of Edmonton and Calgary, to enhance the quality of life for citizens in our two metropolitan areas.

A highlight of phase three will be the provision of opportunities for Albertans to invest in the exciting new projects of resource expansion now on the horizon.

**Part A — The Opportunity for Citizen Participation:**

Increasingly, individual Albertans have felt that circumstances have not given them a full opportunity to invest and participate as shareholders in the major resource developments of our province. My government has recognized this concern. The Third Session will feature two highlights: the presentation of an historic bill — The Alberta Energy Company Act, and the release of a position paper regarding an Alberta Resources Growth Company.

The Alberta Energy Company Act will provide a legislative framework for the concept which was announced last September and subsequently detailed in a position paper in December. As never before, it will provide an opportunity for virtually all Albertans to invest in major energy resource projects such as the Alberta Oil Sands and Suffield natural gas.

This "citizens partnership" approach, involving individual Alberta shareholders and their government, will strive for the appropriate balance of Alberta resource control and private enterprise management. Shares will be offered first to the citizens of Alberta and then to other Canadians during 1974. First-time investors and an instalment purchase plan will be emphasized.

A special position paper will outline a proposed Alberta Resources Growth Company — it will provide Albertans with the opportunity to invest in resource, petrochemical and resource-upgrading projects in the exciting decade ahead. By this means, balanced growth involving smaller centers throughout the province will be achieved.

**Part B — Alberta — The Energy Province:**

My government reaffirms its pledge to honour its trusteeship and to protect the ownership interests of Alberta citizens in the natural resources belonging to them in accordance with the spirit and intent of our Canadian Constitution and the Natural Resources Transfer Act of 1930. Accordingly, appropriate amendments to the Petroleum Marketing Act and to other oil and natural gas legislation will be presented for your consideration.

My government will strive to convert the world energy picture into an "energy opportunity" for Albertans and Canadians by converting the demand for our provincially owned natural resources into diversification of the Alberta economy, thus reducing our dependency upon primary, raw natural resource disposal. This will help to assure Alberta's continued

prosperity and also meet Canada's objective of balanced regional development.

To further strengthen the Canadian petroleum industry based in Alberta, new and additional incentive systems to stimulate exploration drilling and technological progress in oil and natural gas production within the province will be detailed.

My government has long recognized the importance of the Alberta Oil Sands to Canada's energy supply requirements. As this awareness spreads, the northeastern portion of our province will be subject to rapid and intensive growth pressures. The accelerated development of the Alberta Oil Sands will be reflected in a "Statement of Guidelines" for future projects — it will include ownership and environmental provisions.

An Act to establish a Northeastern Alberta Regional Planning Authority will be presented to provide for a Commissioner with powers to assure the orderly development of those provincial and municipal services required to support the rapid expansion of the needs of the citizens living in the oil sands area.

An Act to incorporate the Alberta Oil Sands Technology and Research Authority will also be introduced — it will set the framework for an expenditure of one hundred million dollars over the next five years. It will ensure that this valuable and unique resource does not lose its competitive advantage over other world energy supply sources.

An up-dated, comprehensive Coal Mine Safety Act will be presented for your consideration.

The Alberta Natural Gas Rebate Act will guarantee that our citizens, and the businesses they own and operate, will enjoy the ultimate benefits of our natural gas resources. Not only must these depleting resources be sold only at fair value; my government is committed to policies that will assure that Albertans will derive benefits from their ownership of the natural gas by a reduced net cost for such gas used in their homes and businesses. This program will also assist in restraining increases in the cost of living in Alberta.

#### **Part C — Reducing the Financial Burdens for All Citizens:**

1. In 1971 a commitment was made — that the burden of provincial education property tax would be removed to assist our homeowners and farmers. As a first stage towards keeping this pledge, the Alberta Property Tax Reduction Plan was implemented in 1973. This year Alberta citizens who own homes or live on farms will be relieved totally of the provincial education property tax. The present twenty-eight mill levy on such property will disappear, providing over twenty-two million dollars of major financial relief, giving municipalities more "elbow room" to effectively carry out their responsibilities, and reducing administrative costs. This reform will give tax relief to Albertans at their places of residence and also will help to lower the cost of living. To reflect these significant improvements, substan-

tial amendments to the Alberta Property Tax Reduction Plan will be proposed. The Renters' Tax Credit Program will continue to assist many thousands of Albertans who live in rented accommodation.

2. During the coming year, my government will continue to assist the handicapped and reduce the financial burden for our senior citizens caught between rising costs and fixed incomes:
  - The fifteen dollar deductible applied to benefits provided under Alberta Blue Cross will be removed effective July 1, 1974 — improvements will enable senior citizens to obtain drugs by payment of only twenty percent of the retail cost.
  - The Alberta Health Care Insurance Plan premium subsidy will be fully implemented. It will relieve those who have no taxable income from the payment of premiums for basic health services.
  - The new programs for the handicapped and mentally ill will continue to be improved and expanded.

**Part D — Legislative and Program Proposals:**

Agricultural emphasis during the forthcoming year will be upon implementation of the many new programs launched by my government since September, 1971. This will require the funds allotted to the Agricultural Development Corporation Act to be doubled to one hundred million dollars, coupled with a substantial increase in monies available for loans to stimulate agricultural product industries.

My government will continue to move ahead on all fronts to maintain and improve the quality of life in rural Alberta. Extended area telephone service, rural electrification expansion, rural natural gas lines and highway construction will be further accelerated in the months ahead.

Specifically, the Extended Flat Rate Calling Program, which substitutes a nominal monthly charge for call by call tolls and long distance messages between exchanges thirty miles apart, will be significantly expanded. New highway construction and improvements to existing roads will continue at an even greater pace in 1974.

The Water Resources Act will be revised to upgrade irrigation and management techniques, and initiatives in the management of Alberta's rural fresh water resources will be intensified. The irrigation rehabilitation agreement with the Government of Canada will be fully implemented during the coming year, thus expanding the availability of a resource that can increase food production and processing in southern Alberta in a major way. The Peace-Athabasca Delta area will be protected by the construction of a weir. Marked progress towards a decision on the Red Deer River Dam will be made. New approaches in environmental research and source standards con-

trol will be announced. The availability of modern water and sewage facilities for small centers will be increased.

An entirely new Provincial Parks Act will provide the framework for the expanded parks commitment made by my government last year.

Some land use guidelines for the eastern slopes of the Rockies will be outlined — they will permit the development of some recreational facilities needed for our citizens, and hence will reduce overcrowding in the national parks in Alberta.

There will be increasing emphasis on urban programs with special attention to the metropolitan areas of Edmonton and Calgary:

- Financial assistance to municipalities has been and will be substantially increased.
- A multi-year program of government financial assistance for urban mass transit will be announced.
- The recreational grant program has been refined to enable expansion of needed recreation facilities in urban centers. Funds for the rural portion of this program have been increased; for major cities they have been substantially increased to alleviate previous inequities.
- A unique new provincial park will be announced for Edmonton providing for the first time a nearby provincial recreation facility for the enjoyment of citizens in the area. It will complement the Fish Creek Provincial Park already announced for Calgary.

The province will contribute \$2.75 million or up to 25% of the cost towards neighborhood improvement programs in many Alberta urban areas. Commencement of special planning programs for the Crowsnest area, in consultation with local citizens, will proceed.

Continued initiatives will come forward in the Rural Housing Program, the Assisted Home Ownership Program and the Rental Subsidy Program. Twelve new senior citizens' lodges and seven hundred and fifty units of self-contained accommodation are planned.

In education, the successful Early Childhood Services Program, now serving over 15,000 youngsters in 367 rural and urban centers, will be substantially expanded. Support for handicapped children aged 3 ½ to 4 ½ will be provided for the first time. A special grant for small, remote, rural schools will further slow centralization and help preserve community schools in smaller centers. A program to stimulate voter interest in the fall school trustee elections will be outlined. New approaches in flexible, modular, school design are being implemented.

A proposed Dependent Adults Act will provide a contemporary procedure, unique in Canada, for the appointments of trustees of the estates of mentally incapacitated adults and guardians of dependant adults. As well, extensive amendments

to the Nursing Homes Act will change the role of existing auxiliary hospitals and nursing home boards and will require directors and the majority of voting shareholders of private nursing homes to be bona fide Alberta residents. Substantial new initiatives in day care will be undertaken through the Preventive Social Services Program.

A report on improvements in the province's health delivery system will be presented for your consideration during the fall sittings. The report will outline progress in utilization of services, metropolitan planning councils, conversion to lower cost facilities, use of under-utilized facilities, special services and other aspects of an improved health delivery system for Albertans.

Appropriate recommendations of the Kirby Board of Review regarding the duties of coroners will be implemented.

Guarantees of fairness and equity, including the "home for a home" concept, will be seen in the reintroduced Expropriation Bill — it will provide a model for all of Canada.

New approaches to consumer education will involve extension programs, community colleges, school systems and media information channels. Their objectives will be to improve our citizens' awareness and knowledge as purchasers of goods and services; to expand their appreciation of the various laws and services available to assist and protect them; to expand consumer programs and provide greater service to citizens in every part of the province.

My government will continue to take the appropriate action to ensure that younger drivers will only be charged fair and equitable automobile insurance premiums.

Further development of a Manpower Information System will be featured, providing accurate information concerning employment conditions and trends in the province. Expansion and improvement of services to industry and business with respect to industrial training, especially apprenticeship, will take place. The promotion of industrial safety will receive added attention.

My government will promote the importance of physical fitness during the coming year and is currently working with "Participation" across Canada. The Alberta Summer Games in Calgary, the Canadian Junior Olympic Games in Edmonton and the Canada Winter Games in Lethbridge will all receive government support and technical advice where requested.

The Alberta-R.C.M.P. Centenary celebrations will be a focal point for public attention and participation in 1974. My government is providing substantial support for nearly two hundred and fifty community commemorative projects valued at over four million dollars. My government salutes the thousands of citizens offering their time and energies to the recognition of this special event.

My government will sponsor a major Arts Conference in late spring to demonstrate how all communities can participate in and be enriched by the arts of everyday living.

To improve communication with our citizens regarding government spending programs, a start on a simplified Program Budgeting System will be reflected in the budget.

Adjacent to the Legislative Building, an attractive, relaxing park will be initiated by a unique architectural competition. Alberta Public Works is instituting a program of cooperation with communities to develop expanded joint facilities to house government offices.

A newly organized Northern Alberta Development Council will prepare a short-term "action plan" and a long-range set of priorities for northern Alberta. The successful Metis Housing Program will be continued in cooperation with the Metis Association of Alberta.

Reflecting consultations with the private sector, legislation to establish a trust fund to finance research programs to improve timber development and forest production will be presented.

In keeping with the concept of "Open Government", contact and communication with Albertans will be improved by a Citizens' Inquiry Service using a telephone system connecting every community directly with the provincial government in Edmonton. A requirement for annual reports from each and every government department will ensure that legislators and citizens are fully informed of government initiatives.

#### **Conclusion: Opportunities and Challenges:**

The economy of Alberta and the financial position of the provincial government have never been stronger — the future for Albertans has never been brighter — the opportunity for our citizens never greater. But such times create special responsibilities for governments and legislators — to preserve the quality of our life, to protect our environment and to balance social reforms with economic progress. Such times also create natural stresses within our country as long term power structures are challenged and altered.

A vigorous, expanding economy brings with it shortages of labour and materials. My government and our people must understand and face this reality. It is with an awareness of these factors that my government will stress policies, legislation and programs that create opportunities for voluntary citizen participation, emphasize self-reliance and individual initiative, and strengthen all facets of the energy province of Canada.

Members of the Legislative Assembly — in due course you will be presented with taxation and budget proposals by my government to support these legislative proposals. You will be asked to grant the necessary funds for the operating services and expenditures authorized by the Legislature and to endorse a program of capital financing.

The Premier will be announcing a significant new direction by way of fiscal policy for Alberta during the course of the Session.

The Public Accounts for the period concluding March 31st, 1973 will be presented for your scrutiny.

I leave you now to the business of the Session, with full confidence that as elected representatives your debates and your votes will reflect your understanding of the public interest of all the people of Alberta. I pray for your wisdom and your strength in your deliberations.

Dated: March 7, 1974.

#### **QUESTIONS:**

BY UNANIMOUS CONSENT, THE FOLLOWING QUESTION WAS WITHDRAWN:

**100.** Mr. Wilson to ask the Government the following question: With reference to Sessional Paper No. 280, 1973:

1. Regarding Table No. 2, what are the names and descriptions of the 49 projects covered under the STEP funds (\$447,000.-00) provided for the Department of Culture, Youth and Recreation? How much money was given to each of the 49 projects and what were the names of the individuals requesting each project?
2. Regarding Table No. 3, what are the names and descriptions of each of the 144 projects approved for PEP funds by the Department of Culture, Youth and Recreation? What was the amount given to each project? What are the names of the individuals requesting each project?
3. Regarding Table No. 4, what are the names and descriptions of each of the 85 projects approved for STEP funds by the

Department of Culture, Youth and Recreation? What was the amount given to each project? How many individuals were involved in each project and what are their names?

THE FOLLOWING QUESTION WAS MADE AN ORDER FOR A RETURN:

**101.** (Mr. Notley)

1. How much money has the government received and/or how much is forthcoming by way of rebate from the federal government of oil export tax revenue (by month) for the months of October, November and December 1973 and January and February 1974?
2. How much money has been received or is forthcoming from the federal government by way of investment in the province (by month) from export tax revenues collected by the government for the months October, November, December and January?
3. What criterion has been agreed upon by the Alberta and the Federal Government concerning the investment in Alberta of monies derived from the export tax on oil?

---

**102.** Mr. Notley asked the Government the following question, of which he had given notice, and was answered as follows by Hon. Mr. Copithorne:

*Question 1.*

How much money, if any, was collected by the Alberta Department of Highways (for the years 1972 and 1973 respectively) from seismic companies for testing operations on provincial road allowances:

*Answer:*

None — no fee is charged.

*Question 2.*

What criteria, if any, does the government employ in assessing seismic companies' surface rights or rights of entry with respect to seismic activities on road allowances?

*Answer:*

See sections 18 through 32 of the Geophysical Regulations.

*Question 3.*

How much money, if any, was collected by the government from seismic companies as a result of damage to public roads and road allowances in 1972 and 1973 respectively.

*Answer:*

None.

*Question 4.*

Are seismic companies required to pay in full for all damages they cause to public roads and road allowances in Al-

berta? If not, what criteria, if any, does the government employ to assess the amount of damage to public roads and road allowances by these firms?

*Answer:*

Yes — see section 23 of the Geophysical Regulations.

**103.** Mr. Henderson asked the Government the following question, of which he had given notice, and was answered as follows by Hon. Dr. Warrack (on behalf of Hon. Mr. Yurko):

*Question:*

What assistance is the government providing to the municipalities with regard to their garbage disposal facilities?

*Answer:*

1. The Department of the Environment performs geological studies on proposed landfill sites to ensure adequate soil conditions and water table conditions in order to prevent contamination of groundwater supplies.
2. The Departments of Health & Social Development and Environment advise municipalities on the location of landfill sites in order to protect human health, clean air and water courses.
3. The Department of the Environment supports the establishment of regional landfill sites and assists groups of municipalities in locating suitable sites. Direct financial assistance for the purchase of a regional site will be considered, depending on the merits of the individual case.

#### ORDERS OF THE DAY:

The Speaker invited comments from the honourable Members on the propriety of the following motion:

Mr. Wilson to propose the following motion to this Assembly:

BE IT RESOLVED THAT this Legislature express disapproval to increases in government expenditure estimates, that exceed the limit imposed upon municipalities by incentive grants.

After some debate, the Speaker ruled as follows:

"I'm grateful to hon. members for the opinions which they have expressed on this point and I think that some of the difficulty perhaps arises out of the similar resolution or an identical one having been on the Order Paper last fall.

"Dealing with the question of rigidity of application of the Rules as argued by the hon. Member for Calgary Mountain View, I would suggest that although there has to be some measure of flexibility and the rules are the servants of the House rather than its master, that position can't be extended to extremes, otherwise we would have no rules at all.

"It is precisely because of the concern which I believe the Chair must have for the rights of individual members of the Assembly that a question of this kind has to be looked at extremely carefully. In other words, if debate is going to be permitted, on two or three occasions, on the same topic, the time which is going to be used up in doing that is going to deprive hon. members from dealing with other business during that time, and as hon. members know, there is never sufficient time to deal with everything that comes before the House as fully as hon. members might wish.

"It is very difficult for me to have regard to the customs and usage of the House in years gone by in the absence of a Hansard during those years, unless hon. members are able to refer specifically to precedents in the Journals and of that so far there has been no suggestion.

"With regard to the motion having appeared on the Order Paper both this time and last time and certainly it appeared over the signature, or at least it was approved for inclusion on the Order Paper over the signature of the Speaker, I would draw hon. members' attention to Rule 43 which requires that it is before the question is put — I assume that is intended to mean before debate begins — that the Speaker is to draw to the attention of the House that a motion is out of order. I don't think that that necessarily precludes a motion being kept from the Order Paper initially, but it certainly is, you might say, the Speaker's last chance to deal with the matter, and this is what I'm doing at the moment.

"If the motion were to stand on its own feet independently and deal only with the restriction placed on municipalities, it would probably be acceptable. But as the motion stands, it can't be debated on that basis. There are two items which the motion would require to be debated. One is the government expenditures and the other is municipal expenditures, and then of course, the motion requires that a comparison be made between the two. Consequently I must say that in my opinion the rule against anticipation is indeed applicable and I would respectfully draw to the attention of hon. members who have expressed very justifiable doubts about the prophetic ability of the Speaker that it isn't certainty that's required. The opening in Citation 131 of Beauchesne in dealing with the rule against anticipation, uses the word "probability" in line 3. It must be apparent to all members of the House that there is an extreme probability that this self-same matter will come up for debate when the Estimates are being debated.

"So to conclude, I must say that I find the motion does offend against the rule against anticipation and that it should be removed from the Order Paper, notwithstanding the extreme importance of the topic which has been raised by the hon. Member for Calgary Bow. He isn't really left without a remedy. The same matter can be debated and brought up in the debates on the Estimates and as far as the restriction on municipalities is concerned, it could certainly be brought up in a properly-worded motion divorced from the part which offends against the rule against anticipation.

"I am therefore going to ask the Clerk to remove the motion from the Order Paper."

#### **QUESTIONS:**

THE FOLLOWING QUESTIONS WERE MADE ORDERS FOR A RETURN:

**110.** (Mr. Wilson)

1. (a) What is the number of full-time female employees hired by the Alberta Government since April 1st, 1973?

**QUESTIONS:**

THE FOLLOWING QUESTIONS WERE MADE ORDERS FOR A RETURN:

**114.** (Mr. Taylor)

- (a) How many (1) males and (2) females were in the employ of the Government of Alberta on August 31, 1971?
- (b) How many (1) males and (2) females were in the employ of the Government of Alberta on August 31, 1973?

---

**115.** (Mr. Taylor)

1. What is the total amount of money paid into the Assurance Fund since the inception of the Fund to December 31, 1973?
2. What is the total amount of money paid out of the Fund since its inception to December 31, 1973?
3. What is the total amount of interest and profits received from the investment of funds from the Assurance Fund?
4. In what securities has money from the Assurance Fund been invested?
5. What is the total amount of money transferred from the Assurance Fund to the General Revenue Fund of the province?

---

**116.** Mr. Ruste asked the Government the following question, of which he had given notice, and was answered as follows by Honourable Dr. Horner:

Re: The Alberta Export Agency

1. How much money was expended by the Agency in the calendar year 1973?

The total expenditures of the Agency from June 1, 1973 to December 31, 1973 are estimated at \$347,706 made up of \$334,531 from the Department of Agriculture and \$13,175 from the Department of Industry & Commerce.

2. What agricultural exports was the Agency directly responsible for in the year 1973?

The Agency was not involved in direct sales in 1973. However, it was able to assist the private sector expand its trade in the plant and animal industry sectors. Some areas of support that have resulted in specific sales are as follows:

1. 150,000 hogs — Japan
2. 2.1 million lbs. dehydrated/granular potatoes — Japan
3. 333,680 lbs. pork cuts — Japan
4. 37,140 lbs. broilers — Japan
5. 40,000 lbs. horsemeat — Japan

6. 40,000 lbs. frozen pork backs — Japan
  7. 371 hogs — Korea
  8. 5,000 M/T rapeseed — Korea
  9. 30,000 lbs. potato granules — Chile
  10. 18,000 lbs. freshwater fish — U.S.
  11. Many smaller sales of breeding stock and semen to Latin America and other points.
3. What exports other than agricultural was the Agency responsible for in the same period?

Again, in responding to this question, I must emphasize that the Agency is not directly responsible for exports of non-agricultural goods; however, it has been gradually developing a capability to assist this sector of private industry in the expansion of trade. I must indicate to the Honourable Member that activities in the industrial sector are only now getting under way and that qualified manpower for that portion of the Agency support function began to be available near the end of 1973. A number of non-agricultural projects are now under way to provide assistance to the non-agricultural sector.

4. How many members are on staff and where are they located?

The Agency is presently composed of 16 professional staff of which 9 were seconded from the Department of Agriculture and 3 from the Department of Industry & Commerce. In addition, 4 individuals were hired on a temporary basis. They are all located in the offices in the A.G.T. Tower.

(Sessional Paper No. 153/74)

**QUESTIONS:**

**183.** Mr. Notley asked the Government the following question, of which he had given notice, and was answered as follows by Hon. Mr. Farran:

*Question:*

1. (a) What was the total amount of money spent by Alberta Government Telephones on advertising during 1971, 1972 and 1973 respectively?
- (b) What are the names of the advertising or public relations companies that received contracts from Alberta Government Telephones during this period?
- (c) What was the date that each contract was signed and what was the amount paid in each case?

*Answer:*

Alberta Government Telephones paid out in advertising billings during the years 1971, 1972 and 1973 the following amounts:

1971	Baker Lovick Advertising (Edmonton)	\$ 479,761	
	Roberts/Fenton/McConnell (Edmonton)	48,096	
	To TCTS Advertising McKim/Benton/Bowles (Montreal)	86,884	
		<hr/>	<hr/>
			\$ 614,741
1972	Baker Lovick Advertising (Edmonton)	\$ 413,604	
	Roberts/Fenton/McConnell (Edmonton)	24,399	
	To TCTS Advertising McKim/Benton/Bowles (Montreal)	105,240	
		<hr/>	<hr/>
			\$ 543,243
1973	Baker Lovick Advertising (Calgary)	\$514,877	
	To TCTS Advertising McKim/Benton/Bowles (Montreal)	107,640	
		<hr/>	<hr/>
			\$ 622,517

Most telephone companies in Canada have an Advertising-to-Revenue ratio of 1/2 of 1 per cent. AGT's ratios for the years in question were .503, .384 and .388.

Alberta Government Telephones does not have now, nor has the System ever had a signed contract with an advertising agency or public relations firm.

Roberts/Fenton/McConnell services were engaged in January, 1970 and were terminated in April of 1972.

THE FOLLOWING QUESTIONS WERE MADE ORDERS FOR A RETURN:

**184.** (Mr. Notley)

1. (a) During the period from September 1971 to the present, have there been any cases known to the government in which apprentice tradesmen working for any company or companies in Alberta have been dismissed immediately prior to the point in time at which their wages are to be increased and that these same companies then immediately replace the dismissed apprentices with starting apprentices, thus realizing a saving in terms of the amount of wages paid?

- (b) What company or companies, if any, actually engaged in the practice referred to in (a), for what period of time, and what was the total number of apprentices dismissed in each case?
- 2. During the period since September 1971 have there been any cases in which the apprenticeship-journeyman ratio was exceeded by employers in Alberta which were not authorized by the Director of Apprenticeship? What were the names of the employers involved and to what degree was the ratio exceeded in each case? Were any penalties imposed on employers found to have exceeded the ratio?

---

**186.** (Mr. Wilson)

- (1) What are the names of "Assessable Payroll Accounts" that ceased operation in 1973, owing money to the Workmen's Compensation Board, and the amount of each account owed?
- (2) What was the Workmen's Compensation Board net write-off, in dollars, for 1973?
- (3) Were any of the directors of the companies that ceased operations in (1) above, previously directors of other companies which ceased operation owing money to the Workmen's Compensation Board?

---

**187.** (Mr. Wilson)

- (1) What is the total amount of donations received to date under The Alberta Heritage Act?
- (2) What is the total dollar value of contracts awarded to the private sector to date, under The Alberta Heritage Act?

**THE FOLLOWING QUESTION WAS WITHDRAWN:**

**185.** Mr. Notley to ask the Government the following question:

- 1. (a) How many unskilled workers are presently in the employ of Bechtel, GCOS and Syncrude respectively in Alberta?
- (b) How many of the above were, upon hiring, residents of the local area—i.e. the Fort McMurray region in each case.
- (c) How many of the local unskilled workers presently in the employ of each company are Indian or Metis?
- (d) What proportion of skilled workers employed by each of the above companies are Indian or Metis?

**MOTIONS FOR A RETURN:**

THE FOLLOWING MOTION WAS AGREED TO:

**188.** Moved by Mr. Wilson:

**QUESTIONS:**

**198.** Mr. Clark asked the Government the following question, of which he had given notice, and was answered as follows by Hon. Dr. Warrack:

*Question 1.*

Did the government King Air, CF-AFD, and/or Queen Air, CF-CKM, make a trip to Calgary on the evenings of Tuesday, May 28th, 1974 and Thursday, May 30th, 1974?

*Answer:*

The King Air (CF-AFD) made a trip to Calgary at approximately 5:45 p.m. on Tuesday, May 28. No government plane made a trip to Calgary on Thursday, May 30.

*Question 2.*

If the planes went to Calgary May 28th, 1974 and/or May 30th, 1974 who were the passengers on the trips to Calgary and on the return trips and what were the dates of the return trips?

*Answer:*

On May 28th, the passengers on the King Air (CF-AFD) were the Premier and Mr. Stewart McCrae, M.L.A. The return trip, following aircraft servicing in Calgary, was at midnight on Wednesday, May 29. May 30 not applicable.

*Question 3.*

What were the purposes of the trips?

*Answer:*

The May 28 trip was to ferry the King Air (CF-AFD) to Calgary where avionics maintenance and repair, which included auto pilot and radar, had been scheduled at Field Aviation as this work has always been done by them. Concurrently, the Premier had a full day of scheduled appointments in his Southern Alberta Calgary Office on Wednesday, May 29, including a meeting with the special representative of Premier Davis with respect to the September Premiers' Conference in Toronto.

*Question 4.*

What were all the public meetings attended by all passengers on CF-AFD and/or CF-CKM on the evening of May 28, 1974 and/or May 30th, 1974?

*Answer:*

The Premier and Mr. McCrae attended a public nominating meeting in Calgary Bow constituency on Tuesday evening, May 28, prior to which meeting Mr. McCrae attended the Tri-Wood Community Club Father and Son Sports Banquet at the Southern Alberta Jubilee Auditorium. The Premier attended a high school convocation where he was the guest speaker for the graduating class of Ernest Manning High School on Wednesday, May 29.

*Question 5.*

What was the total cost involved in trips of the government plane to Calgary and return May 28th, 1974 and/or May 30th 1974?

*Answer:*

The tariff rate for the King Air (CF-AFD) at that time was \$210.00 per hour. A return trip to Calgary is 1.6 hours; therefore cost was \$336.00.

*Question 6.*

What portion of the cost was paid out of public funds?

*Answer:*

The total cost of the trip was paid by public funds.

**MOTIONS OTHER THAN GOVERNMENT MOTIONS:**
