FIRST SESSION

TWENTY-FIRST LEGISLATURE

THURSDAY, JUNE 12, 1986

This being the First Day of the First Session of the 21st Legislative Assembly of the Province of Alberta, for the despatch of business pursuant to a Proclamation of Her Honour the Honourable W. Helen Hunley, Lieutenant Governor, dated the 3rd day of June, in the year of our Lord one thousand nine hundred and eighty-six;

The Clerk of the Legislative Assembly read the Proclamation as follows:

Proclamation

[GREAT SEAL]
CANADA
PROVINCE OF ALBERTA

W. HELEN HUNLEY,
Lieutenant-Governor.

ELIZABETH THE SECOND, by the Grace of God, of the United Kingdom, Canada, and Her other Realms and Territories, QUEEN, Head of the Commonwealth, Defender of the Faith

PROCLAMATION

TO OUR FAITHFUL, the MEMBERS elected to serve in the Legislative Assembly of Our Province of Alberta and to each and every one of you GREETING ...

D.W. Perras,
Deputy Attorney General

WHEREAS it is deemed expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Alberta, WE DO WILL that you and each of you, and all others in this behalf interested, on THURSDAY, the 12th day of June, A.D. 1986, at the hour of THREE o'clock in the afternoon, at Our City of Edmonton, personally be and appear for the despatch of business, to treat, act, do and conclude upon those things which, in the Legislature of Our Province of Alberta, by the Common Council of Our said Province, may, by the favour of God, be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent, and the Great Seal of Our Province of Alberta to be hereunto affixed.

WITNESS: THE HONOURABLE W. HELEN HUNLEY, Lieutenant Governor of Our Province of Alberta in Our City of Edmonton, in Our Province of Alberta, this 3rd day of June, in the year of Our Lord One Thousand Nine Hundred and Eighty-six and in the Thirty-fifth Year of Our Reign.

BY COMMAND:

James D. Horsman,
Provincial Secretary.

The members, having previously been duly sworn in by Her Honour the Honourable the Lieutenant Governor and having subscribed to the Roll containing the Oath, took their seats.

Her Honour the Honourable the Lieutenant Governor entered the Assembly and took her seat on the Throne.

Statement by the Provincial Secretary

The Provincial Secretary then said:

Honourable Members, I am commanded by Her Honour the Honourable the Lieutenant Governor, to inform you that she does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of the Assembly shall have been chosen according to law.

She therefore is pleased to retire from this Assembly, to return at a subsequent hour today, to declare the causes of the calling of this Legislature.

Her Honour the Honourable the Lieutenant Governor then retired from the Assembly.

Election of Speaker

Hon. Mr. Getty, Honourable Member for Edmonton-Whitemud, replying to the Clerk's request for nominations for the Office of Speaker of the Assembly, nominated Dr. Carter, Honourable Member for Calgary-Egmont, to take the chair of this Assembly as Speaker, supported by Mr. Martin, Honourable Member for Edmonton-Norwood.

The Clerk, having asked if any Honourable Member had another name to propose as Speaker, and no other name being proposed, then declared that "Dr. Carter, Honourable Member for Calgary-Egmont, is duly elected Speaker of the Alberta Legislative Assembly for this Twenty-first Legislature."

Speaker's Address to the Assembly

The Speaker retired, donned his robe and re-entered the Assembly, and standing on the dais, thanked the Assembly for the honour conferred upon him with the following speech:

Members of the Assembly:

Thank you for the appointment to serve you and the people of Alberta as Speaker of this Assembly. All learned parliamentary source documents regard Mr. Speaker as the president or the presiding officer of this august body of decision-makers. Some members of the general public see the Speaker, especially during question period, as being something of a referee. As a sports fan I want to go on record as now having much more sympathy for all referees.

As I take on the responsibility of the Chair, I first would like publicly to acknowledge my predecessor, the former Member for Edmonton-Meadowlark, who served the Assembly and the people of Alberta with distinction. In addition, I am sure all members will join me in saying a sincere thank you to the previous Member for Athabasca for his time as Deputy Speaker.

I look forward to working with the Member for Lethbridge-West as he takes on his new duties of Deputy Speaker.

I thank my constituents in Calgary-Egmont for their confidence in me as their Member of the Legislative Assembly. Calgary-Egmont indeed has a very special place in my life and in my heart.

John Donne was the poet dean of St Paul's, London. In the opening line of one of his poems he begins, "No man is an island." So, too, I am not an island. I greatly value my many friends and supporters who have freely given the gifts of friendship and wisdom over the years. In particular, I wish to acknowledge my family, to thank them for their gifts of love, understanding, and patience, for all people of the province should realize that elected public office places incredible demands upon both individuals and their families. My father is unable to be present as he is in the hospital in Calgary, and I ask all hon. members to join me in wishing him a speedy recovery.

As your Speaker I welcome all members to the 21st Legislature. Thirty-nine of 83 members are new to the Assembly; many others of us undertake new responsibilities. Each one of us represents all of our constituents, no matter what their political stripe, cultural or linguistic background, whether or not they voted for us or chose not to exercise their right to vote at all. Each one of us is a politician, but now in the Assembly we are also challenged to function as parliamentarians. This will allow the development of many new skills. There will be ample opportunity for questions, for debate, for consensus, friendships, and even laughter. Canada is a magnificent tapestry of geography

and people. Alberta is also a magnificent tapestry of geography and people. You and I have been elected to serve not only our constituents but all the people of this great province. You have pledged yourself in that service, and so in turn I pledge myself to the service of the Assembly of the Province of Alberta. Thank you.

The Speaker then took the Chair and the Sergeant-at-Arms placed the Mace on the Table.

Her Honour the Honourable the Lieutenant Governor returned to the Assembly and took her seat on the Throne.

Speaker's Address to the Lieutenant Governor

Mr. Speaker then said:

May it please Your Honour, the Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If in the performance of those duties I should at any time fall into error, I pray that the fault may be imputed to me and not the Assembly, whose servant I am, and who, through me, the better to enable them to discharge their duties to their Queen and Province, hereby claim all their endowed rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all reasonable times and that their proceedings may receive from you the most favourable consideration.

Statement by the Provincial Secretary

The Provincial Secretary then said:

I am commanded by Her Honour the Honourable the Lieutenant Governor to declare to you that she freely confides in the duty and attachment of this Assembly to Her Majesty's person and Government, and, not doubting that the proceedings will be conducted with wisdom, temperance and prudence, she grants and upon all occasions will recognize and allow the Assembly's constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to Her Honour upon all suitable occasions and that all proceedings as well as your words and actions will constantly receive from her the most favourable construction.

Speech from the Throne

Her Honour the Honourable the Lieutenant Governor then read the following Speech from the Throne:

Mr. Speaker and Members of the Legislative Assembly:

I have the honour to welcome you to the First Session of the 21st Legislature of the province of Alberta.

Priorities

My government's legislative and budgetary policy for this session of the Legislative Assembly will include all the priorities and programs set out at the opening of the Fourth Session of the 20th Legislature on April 3, 1986. My government will move quickly to fulfill commitments in agriculture, energy, employment initiatives, senior citizen programs, and other areas of importance to Albertans.

These priorities have recently been strongly supported by the citizens of Alberta. My government is sensitive to the responsibilities contained in its new mandate and will work closely together with Albertans during the years ahead. Challenges will be met, opportunities will be seized, and the great potential of this wonderful province will be realized.

My government shares the concerns of Albertans as we face difficult times together. Our basic industries have been hit by national and international economic circumstances, and as a result, the opportunities for advancement and prosperity are, for a time, more limited than before. My government also shares the basic optimism of Albertans who have achieved so much by commitment to hard work and individual initiative. Unemployment has a direct effect upon many of our people, bringing hardship and anxiety to individuals and families. The challenge for all of us now is to continue to use our basic strengths to progress in spite of adversity. My government proposes a balanced approach which will advance rights and equality; maintain excellent support programs for our citizens in need; respond with sensitivity to concerns of individuals, families, and volunteer groups; and continue to broaden our economic base at the same time as assisting our key agricultural, energy, and small-business sectors.

Agriculture

The Alberta farm credit stability program, announced on April 3, 1986, will provide \$2 billion in fixed rate financing with up to \$200,000 per farm family unit. Loan application forms are now being printed and will be ready for processing at participating financial institutions very soon. The program will be as broad as possible in its scope, based on repayment ability and available security. With this new financing farmers and ranchers in Alberta will have both the stability of fixed interest rates and among the lowest input costs in North America.

My government has established a changed, more efficient organization of the departments of government. Agriculture, which is my government's number one priority, is an important part of these changes. The new Associate Minister of Agriculture will be responsible for the Alberta Hail and Crop Insurance Corporation, the Surface Rights Board, the weather modification advisory committee and will be responsible for the review of the role and mandate of the Alberta Agricultural Development Corporation. Farmers will be fully consulted in respect to changes to be made in the corporation and in hail and crop insurance programs.

The hail and crop insurance review will be the most comprehensive of its kind since the programs were introduced in the 1960s. My government will provide a range of options for producers in insurance protection from damage caused by weather and other hazards affecting crops. Recommendations are anticipated during 1986.

My government is changing the funding formula for drainage and erosion control projects undertaken under the Alberta water resources grant program. The increased funding, providing 86 percent provincial support, will improve rural water management and will increase our agricultural land base.

Senior Citizens

The senior citizens' home improvement program extension will take effect July 1, 1986, to December 31, 1989. This extension will provide benefits to seniors with total annual incomes under \$23,000 who have not yet received assistance through the existing seniors' home improvement program. Affordable senior citizen housing remains a priority of my government. Over 500 new units are scheduled for construction this year.

Jobs For Albertans

My government recognizes the increasing need for job creation and will continue its commitment to employment support and training initiatives now under way, including youth programs. In addition, other training strategies will be developed to promote increased participation by women in training and development opportunities. My government recognizes the special employment needs of women and will develop choices for women through the provision of information, counselling, and workshops. My government will propose legislation to the Assembly to change the name of the manpower department to the Department of Career Development and Employment, reflecting new initiatives and priorities in the important areas of training and employment.

Diversification of Alberta's economic base remains a priority of my government. New economic opportunities and new industries are encouraged. The magnesium plant to be built in southern Alberta and the chemi-thermo-mechanical Whitecourt pulp mill are both world-scale investments. The pulp mill will be the largest of its

type anywhere. Using a mixture of Alberta woods, producing products which are new to the Alberta manufacturing scene, some 90 percent of the plant's production is estimated to be for export. Work on the magnesium plant is scheduled to begin late this year. Both projects are scheduled for start-up in 1988.

Our economic base is broadening year by year. Sulphur and forest products are now important elements of our resource base. The petrochemical, electronics, and metal fabricating industries have emerged as strong components of our manufacturing sector. A highly developed service industry involving tourism, high technology, and engineering add more economic strength. These newer initiatives will provide important opportunities and new jobs for Albertans. The Departments of Forestry, Lands and Wildlife; Tourism; and Technology, Research and Telecommunications, established earlier this year, are all actively involved with the private sector in stimulation of job creating activity in Alberta's economy.

A further important step in my government's program to stimulate job creating activity is the Alberta small-business term assistance plan. Small business accounts for over 70 percent of new jobs created, and the new plan will provide much greater stability to the small-business community for those businesses having majority ownership by Alberta residents and deriving at least 50 percent of income from active business sources.

The \$750 million program will provide eligible small businesses with a fixed interest rate of 9 percent for term financing up to \$150,000 over a period of 10 years. Loan application forms for the program, which will significantly assist small-business growth and development in Alberta, will be ready for processing through recognized financial institutions at the earliest possible date this summer.

The small business equity corporations program and the Alberta stock savings plan are further important initiatives to improve the viability of small business and to encourage equity capital investments in this province. Small business is a major force in the development and growth of export markets. Many small Alberta manufacturing firms are now exporting products to other Canadian provinces and to other countries. Assistance is provided to exporters through the Alberta loan guarantee program and the export services support program. With loan guarantees and improving productivity and technology, Alberta businesses, working with government, will improve their competitiveness in export sales worldwide.

More jobs will also be created by my government's five-year program to extend universal private line service to all rural telephone subscribers. Under the program, 100,000 party line customers will have access to private lines. This program, at a cost of about \$500 million, will involve the upgrading of approximately 300 telephone exchanges throughout Alberta with digital equipment. This will not only allow for the connection to new private line service for present party line customers; it will permit improved services for those living in towns and villages.

My government will ensure that Alberta's goals and objectives with respect to trade liberalization are effectively addressed in the pending Canada-United States and multilateral trade negotiations.

Energy

My government is committed to the long-term strength of our energy industry and to support its short- and medium-term economic viability during this present difficult period of uncertainty in international crude oil pricing. In spite of pricing uncertainties in oil and gas markets, the longer term prospects for our energy sector remain strongly positive. Albertans have established the reserves and the productive capacity in petroleum and natural gas, and my government, working closely with industry, has developed programs aimed at bolstering investor confidence and exploration activity through a period of price and market uncertainty.

New shared industry/government programs should result in more than \$500 million of short-term stimulation to the vital drilling, well service, and geophysical industries. These programs will materially assist in creating activity and supporting employment through the summer and fall months.

The development drilling assistance program is designed to encourage drilling activities and includes a well completion component. Approximately 40 percent of drilling costs, up to a maximum of \$200,000 per well by way of grants or transferable credits against royalties, will be available up to a maximum under the program of \$100 million. The drilling component will be paid when drilling has been completed on the well, and the well completion component will be paid when the well is completed and is capable of commencing production.

The well servicing assistance program will help maintain employment in the well service sector. The program will provide 50 percent reimbursement by way of cash grants, up to certain limits, for contract labour costs incurred on or before September 30, 1986, for the maintenance and service of eligible wells, pipelines, and batteries.

The geophysical assistance program will provide a portion of the cost of field expenses incurred on or before December 31, 1986, for reflection seismic work on Crown lands and on lands not more than 1.7 kilometres from Crown lands.

Oil sands and heavy oil developments are vital not only for Canada's long-term energy supply but today in Alberta because of the capacity of these projects to provide employment in engineering and in the construction trades. Under a federal/provincial/industry funding arrangement, engineering work is proceeding for the proposed Husky upgrader near Lloydminster.

My government has also reached a funding agreement with the owners of the Syncrude project to allow continuation of the basic engineering and planning for the major proposed expansion of that project. Preparatory work for the expansion

is estimated to cost \$85 million. It will take some two and a half years to complete and will allow the planning for the expansion to continue on the original schedule. By acting now in this way, it is also an investment in the long term by providing for the continued growth of expertise in oil sands development in Alberta.

Suncor is also being helped by an adjustment to royalties on the production from its oil sands plant at Fort McMurray. This is in recognition of the financial difficulties the company is experiencing as a result of low oil prices and will help to retain Suncor as a viable employer within the Alberta economy.

Commitment to Alberta Women

As soon as the necessary legislation has come into force, appointments to fill all positions on the Advisory Council on Women's Issues will proceed. A balance of views from across the province will be assured because of the large number of nominations received from interested Albertans.

A government-wide plan of action to provide a framework and direction for enhancing women's equality will be developed. The strategy will focus on employment, education, participation in public life, and on social services and health.

My government will also be participating in two federal/provincial/territorial working groups. One will focus on the needs and concerns of native women and the other on the particular issues affecting immigrant and visible minority women. My government is committed to equality for women and will actively promote the full and equal participation of Alberta women in the life of the province. The November 1986 First Ministers' Conference will have as a major priority developing methods to improve the representation of women in training and retraining programs.

Public Lands

The grazing lease conversion policy introduced several months ago is consistent with my government's high priority for agriculture. The policy allows leaseholders to use arable land for more productive agricultural purposes. Leased lands which are suitable for cultivation may be converted at market value, provided they are not environmentally sensitive. Agricultural lands in the green area will not be sold unless the integrated resource plans identify agricultural use as a priority. This will ensure that environmentally sensitive lands are not being encroached upon.

Further approvals of conversions in the southern and central administrative regions will be frozen until full public input has been received and any expressed concerns adequately reviewed. In this way the policy will be sensitive to Albertans' needs, effective, well understood and broadly supported.

My government also will expand the highly successful "use respect" program. This is a program involving 4H clubs visiting farming and ranching communities to encourage owners to provide reasonable access to their private and leased lands. It is hoped that over 25,000 farm and ranch homes will be visited between June and October of this year.

Health Care

My government has developed and is committed to the further improvement of one of the best health care systems anywhere in the world. To serve Albertans even better, the University of Alberta's Walter C. Mackenzie Health Sciences Centre has now been designated as western Canada's first heart and heart/lung transplant centre.

The University of Alberta hospitals undertook a successful heart and heart/lung transplant pilot program in 1985. The three cases in the pilot program represented a first for Alberta and western Canada.

The concept of the Walter C. Mackenzie Health Sciences Centre is for Albertans to have a world-class teaching, research, and treatment centre. The implementation of the heart and heart/lung program is a fulfillment of this concept, particularly in the areas of comprehensive cardiology and cardiovascular surgery.

Community and Social Programs

My government's commitment to a broad range of social programs to assist Albertans who have personal needs is emphasized by the expanded home care program announced in April this year. Close to 25,000 Albertans benefit from this program annually.

Funding will increase by 18 percent, and this increase will allow more Albertans to receive health care and homemaking services in their homes. Living independently in the familiar surroundings of one's home contributes to a sense of self-worth and good health.

Home care programs provide a range of services in the home, including nursing rehabilitation therapy, personal care, homemaking, home help, Meals on Wheels, and friendly visiting.

In addition to senior citizens, the program serves persons who are terminally ill, those discharged early from hospital, and persons under 65 who are chronically ill or disabled.

Funding for women's shelters will be increased by 40 percent to a total of \$3.5 million. These funds, to be provided to women's shelter organizations, in addition to the valuable volunteer support that many communities provide, will ensure that resources are available to respond to the concern of family violence.

Food banks in Edmonton and Calgary are co-operating with my government in a current assessment and review of the scope and future role of food banks. By such consultation a new, careful definition of the respective roles of government social services and volunteer agencies which serve in this way will be possible.

The new Department of Community and Occupational Health will have a preventive health focus with responsibility for community, occupational, and mental health in addition to the Alberta Alcohol and Drug Abuse Commission and the Workers' Compensation Board.

Affordable Housing

Alberta is the first province to sign the new federal-provincial global funding agreement for low income housing. Under the agreement the federal government will pay 70 percent and the province 30 percent of the subsidy costs for future low-income housing projects. Over 700 units are planned in the current fiscal year.

Help for Municipalities

My government is responding positively to recommendations made by the municipal grant structures review committee. By increasing unconditional grants on a yearly per capita basis over the next eight years, Alberta's 364 municipalities will receive some \$500 million in additional provincial funding. The opportunity for municipal governments to create employment at the same time as proceeding with needed local projects will benefit many Albertans.

A full review of labour legislation will be undertaken by my government, and necessary amendments will be proposed to assure that the laws of the province, for the present and for the future, will be responsive to the needs and aspirations of employers and employees.

Legislation will be introduced to implement the Alberta stock savings plan, to amend the Municipal Taxation Act, and new proposals will be made in respect to local authorities elections, employment pensions, the Women's Secretariat, mental health, and to implement the Hague convention on the civil aspects of international child abduction.

Members of the Legislative Assembly: in due course you will be presented with the budget estimates. You will be asked to grant the necessary funds for the operating services and expenditures authorized by the Legislature and to endorse a program of capital financing for the government of Alberta.

I leave you now to the business of the session with full confidence that as elected representatives, your debates and your votes will reflect your understanding of the public interests of all people of Alberta.

I pray for your wisdom and strength in your deliberations.

Her Honour the Honourable the Lieutenant Governor then retired from the Assembly.

Government Bills and Orders

Ordered, That the Honourable Mr. Getty have leave to introduce a Bill entitled "Natural Gas Pricing Agreement Amendment Act, 1986" (Bill No. 1).

Hon. Mr. Getty accordingly presented the Bill and the same was received and read a First time.

Tabling of Documents

Mr. Speaker informed the Assembly that he had obtained a copy of the Speech of Her Honour the Honourable the Lieutenant Governor, which was laid on the table.

ROUTINE

Presenting Petitions

Mr. Hawkesworth, Hon. Member for Calgary-Mountain View, presented a petition signed by 939 Albertans requesting that the Legislative Assembly restore access to the shores and waters of Ghost Lake via Crown land.

Statement by Mr. Speaker

Hon. Mr. Speaker made the following statement:

The new party structure of the House has necessitated a review of some of our practices relating to Question Period and Ministerial Statements. I have consulted the Leaders and House Leaders of all parties represented in the Assembly and have determined that the following practices will be followed, for the time being, to ensure fairness between all members and parties.

Question Period

In Oral Question Period:

1. The first question and up to three supplementary questions may be asked by the Leader of the Official Opposition or, in his absence, the Official Opposition House Leader or, in the absence of both of them, by a delegate;
2. The second question also, and up to three supplementary questions may be asked by the Leader of the Official Opposition or his delegate;
3. The third question and up to three supplementary questions may be asked by the Leader of the Liberal Party, or in his absence, the Liberal House Leader or, in the absence of both of them, by a delegate;
4. The fourth question and up to three supplementary questions may be asked by the Leader of the Representative Party, or, in his absence, his delegate.

In each case, once the original question and up to three supplementary questions have been asked, the opportunity for one further supplementary question will be given to the first person recognized by the Speaker from each of the remaining three parties in the order determined by the Chair.

Once the first four questions and the subsequent supplementary questions have been dealt with, the Chair will then recognize members from all parties in the Legislative Assembly in a fair and representative manner. In each case, the member recognized by the Chair will have the same opportunity to ask his or her question along with up to three supplementary questions. In addition, the opportunity to ask one supplementary question will be available to one member of each of the other parties.

With regard to oral questions, I draw the attention of members to Beauchesne's 5th Edition - citation 357, which summarizes the traditional restrictions on

both written and oral questions and to citation 358, which deals specifically with oral questions and answers.

Citation 358 provides that:

1. Oral questions should:
 - (a) be asked only in respect of matters of sufficient urgency and importance as to require an immediate answer;
 - (b) not inquire whether statements made in a newspaper are correct;
 - (c) not require an answer involving a legal opinion;
 - (d) not be asked in respect of a matter that is sub-judice;
 - (e) not be of a nature requiring a lengthy and detailed answer;
 - (f) not raise a matter of policy too large to be dealt with as an answer to a question.
2. Answers to questions should be as brief as possible, should deal with the matter raised, and should not provoke debate.

Ministerial Statements

Ministerial Statements are not a normal part of the procedure of the House, but are recognized in the Daily Routine. The Speaker has traditionally set limits on participants to keep contributions brief and factual. (This is referred to in Beauchesne, citation 262).

The traditional opportunity of response by the Leader of the Official Opposition, or in his absence, the Official Opposition House Leader, will be continued, but a three-minute time limit will be applied to the response.

The Government has agreed that, where possible, it will minimize the amount of time taken for Ministerial Statements on Private Members' days.

A copy of this statement will be delivered immediately to all members.

Statement by Mr. Speaker

Mr. Speaker made the following statement:

The Chair has convened two meetings of House Leaders, representing all parties represented in the Legislative Assembly, to consider the matter of supplementary responses to answers given earlier and responses to questions taken as notice.

The House Leaders have unanimously agreed that Ministers should be allowed, at the end of Oral Question Period, to briefly supplement answers given previously and to respond to questions taken as notice. The House Leaders have further agreed that the Member whose question has received a delayed response may ask one further brief supplementary question and a Minister may respond to such supplementary question.

Strict adherence to procedural rules would require the unanimous consent of the House on each occasion when this practice is undertaken. The Chair has, however, noted that House Leaders have unanimously agreed to this provision and will assume the House has given unanimous consent unless any Member voices a contrary opinion.

ORDERS OF THE DAY**Questions**

The following question was accepted:

(Mr. Wright)

167. Does the Department of Hospitals and Medical Care provide the services necessary to encourage the self-administration of intravenous antibiotics in the homes of persons requiring such antibiotics and, if not, what considerations

militate against taking advantage of the economies inherent in the provision of such services?

Hon. Mr. M. Moore, Minister of Hospitals and Medical Care, provided the following answer

The answer, in fact, is that the responsibility for such self-administration of intravenous antibiotics rests with the hospitals, and we indeed have had submissions from at least one hospital to provide some funding and are presently reviewing that. There is certainly no reason why a hospital couldn't, on a trial basis, provide that from their own resources. I thank the Hon. Member for having written me separately on it, and we will be following it up.

The following question was not accepted:

(Ms. Mjolsness)

166. With regard to the job-finding centres program operated under the Department of Social Services, as at August 15, 1986:

 - (a) less than \$3.80 per hour,
 - (b) \$3.80 per hour,

 - (f) the identity of the lessor,
 - (g) the identity of the lessee,
 - (h) the purpose for which the space had been leased,
- and was the office space occupied by the lessor at April 1, 1986?

- (2) Noted separately in each instance for the city of Edmonton, the city of Calgary, and Alberta excluding the cities of Edmonton and Calgary, with regard to office space leased by the Government, any of its departments or agencies, or the Crown in right of Alberta, at April 1, 1986, what was

Questions

The following question was ordered to stand:

Mr. Wright to ask the Government the following question:

170. What evaluation has been made of the impact on the computerization program in the Solicitor General's Department - the purpose of which is to provide an effective, prompt and ongoing exchange of motor vehicle and driver licence information between the Department, police forces and other provincial authorities, and which has been experiencing repeated difficulties and delays since 1981 - of the abolishment on or about December 1, 1982, of the position of Director of Program Planning (Position No. 3475-0601)?

What considerations led at the time to the decision to abolish the position, in light of the fact that the reason given for the termination was that the position's functions were "no longer required"?

As the holder of the position at the time of its abolishment was familiar with all aspects of the Canadian Police Information Centre system, what efforts were made to retain this expertise in the service of the Department's computerization program?

Has the Department, since December 1, 1982, reinstated the position or created a position with similar functions and, if not, why not?

I have watched with interest your activities over these past many weeks. Tonight was an example of the consideration you've been giving on behalf of the people to these many Bills to which I've given Royal Assent. I'm sure that now, since summer has faded into fall, you're wondering where the summer went. But on behalf of the people, I would like to thank you for the consideration and the dedication you brought to your duties here in the Legislative Assembly.

Probably it has not been an easy summer for you. I know that you have attended to your duties with dedication and with due deliberation for the importance of the matters you've had under consideration. So on behalf of the people of Alberta, I thank you for your diligence and for the efforts you have made on their behalf. I hope that now you will have at least some opportunity for some R and R. I know you deserve it, and I hope you will take advantage of it, because you can't just work like this forever, as I well know. You do deserve to have some rest before you go about all the other numerous duties that you do and have undertaken on behalf of the people.

I thank you for your efforts on behalf of Albertans.

Her Honour the Honourable the Lieutenant Governor then retired from the Assembly.

The Assembly adjourned at 8:53 p.m. until such time and date prior to the commencement of the Second Session as is determined by Mr. Speaker after consultation with the Lieutenant Governor in Council.
