Introduction of New Member

The Speaker announced that a vacancy had occurred in the constituency of Edmonton-Strathcona as a result of the death of the sitting Member, Mr. Gordon Wright. The Speaker further announced that he had received from the Chief Electoral Officer of Alberta, pursuant to the Election Act, a report containing the results of the by-election conducted on December 17, 1990, which states that a by-election was conducted in the constituency of Edmonton-Strathcona and the said report further shows that Mr. Barrie Chivers was duly elected as the Member for Edmonton-Strathcona.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

Speech From The Throne

Mr. Speaker and Members of the Legislative Assembly:

On this first occasion on which I am privileged to represent Her Majesty at the opening of this Assembly, it gives me great pleasure to have the honour to welcome you to the Third Session of the 22nd Legislature of the Province of Alberta.

I, first of all, wish to take this opportunity on behalf of all Albertans to pay tribute to my predecessor, the Hon. Helen Hunley, who as Her Majesty's representative so diligently and conscientiously carried out the duties of this office for the past six years.

I would also like on behalf of my Government and all Albertans to express my sincere gratitude to those Albertans who served with the coalition forces in the recent conflict in the Persian Gulf. Their bravery and that of their families make us proud. I am thankful for their safe return.

We live in interesting times. Everywhere we are surrounded by change. As we begin this session, my Government recognizes these changes pose immense challenges for Albertans and Canadians as we approach the beginning of a new century. In facing these challenges, in finding solutions that will allow us to continue to prosper as a province and a people, my Government and Albertans must communicate and co-operate better than ever before.

Albertans, through our province's strong democratic traditions, have made this Assembly the instrument through which their common desires and values are developed into policies that shape the future of our province. In developing these policies, the key to my Government's role is balance. My Government must provide stability amidst this world of change. It must instill confidence in Alberta's future. I now outline the directions my Government will take.

The Fiscal Challenge

The fiscal challenges facing my Government and all Albertans, those of maintaining the services my Government provides while exercising fiscal restraint, are extremely difficult ones. Reduced Federal Government support, inflationary pressures, increased demand on services, and fluctuating commodity prices all influence Alberta's fiscal position.

It is widely accepted that my Government's record with respect to controlling program spending is the best in Canada. In addition, because of my Government's careful fiscal management hundreds of thousands of Albertans enjoy the lowest taxes in Canada. My Government cares about all Albertans. Fiscal responsibility is not a blind obsession; fiscal responsibility helps our people and allows us to provide special help to those who really need it.

The fiscal challenges for governments grow more difficult every day, but striving to balance the budget remains a priority. Budgets, however, are not just balance sheets. Budgets are also about schoolchildren, the sick, the handicapped: people, families. My Government will ensure that those basic services — health, education, social services, seniors programs, and protection of the environment — are maintained to ensure the high quality of life Albertans enjoy.

Except for Alberta, Canada is in the midst of a recession, and many Canadians are enduring economic hardships. Through the efforts of Albertans and my Government's fiscal and diversification policies, Alberta will continue to grow in spite of the recession around us. It is widely recognized that Alberta's economy will continue to be the most vibrant in Canada and indeed North America. Alberta's unemployment rate is the lowest in our country as my Government's plan, working in partnership with our people, is meeting its objectives. Albertans should be proud that their planning, work ethic, and individual initiative have made our province a beacon of financial strength in North America.

The Economic Challenge

The economic challenges facing Alberta are considerable. An increasingly competitive marketplace, technological change, and protectionist trade practices both within and outside of Canada are a few of the challenges business and my Government must face together in developing an economy that will continue to prosper into the next century.

My Government will work with business, labour, and community leaders in order to ensure that our plan for Alberta's economic future continues to be successful and able to meet the changing conditions. My Government will assist business to find other solutions as well. For our traditional industries, agriculture and energy, and for our new industries — forestry, technology, tourism, and petrochemicals — my Government will continue to aggressively pursue new markets, reduce interprovincial and international barriers to trade, seek new investment, apply new technologies, and provide a climate in which business can be successful. At the same time, the initiative of individual Albertans should not be and will not be restricted or overregulated.

Alberta's economic strength depends on the prosperity of every region of our province, and my Government is committed to ensuring that both urban and rural Alberta are given the opportunity for growth. By working with farmers and the Federal Government to provide income stability for agriculture, assisting small businesses and exporters in getting their start, encouraging continued specialization and diversification throughout the province, continuing to improve our transportation system, and encouraging rural business development, my Government will be part of the solution to our economic challenges.

Alberta's economic prosperity also depends on the quality of our work force. My Government will work with business, labour, and industry to develop new labour market strategies; enhance our education, training, and certification programs; encourage research and development; and continue to improve workplace health and safety.

My Government also recognizes the importance our international relations hold with respect to the prosperity of our province. My Government will enhance its international efforts through our offices, trade missions, and our special relationships with provinces and states in other countries. My Government will also pursue closer economic ties with the Pacific Northwest Economic Region.

In the important area of international trade policy my Government will work closely with Alberta business, other provinces, and the Federal Government to ensure that Alberta's interests are addressed in the Canada/U.S./Mexico and General Agreement on Tariffs and Trade negotiations. The success of the GATT negotiations is vital to the future of agriculture in Alberta. My Government strongly supports fair and liberalized trade throughout North America and the world.

Encouraged by my Government, Alberta's entrepreneurs and dedicated work force have built a strong and diversified economy that will continue to prosper amidst the changes we face.

The Environmental Challenge

The environmental challenges facing Alberta, Canada, and the world are very complex. Balancing economic development and environmental protection, maintaining our quality of life and the quality of our environment, and accepting our role as part of a global environment: these are issues facing our province in the '90s. Albertans, Alberta industry, and my Government have worked together to achieve great success in the past, and we must be steadfast in our commitment to find solutions for the future.

My Government will introduce strong environmental protection legislation, draft waste management legislation, create clean air and fuel efficiency programs, and examine all major economic initiatives. Albertans throughout the province will be consulted and involved in deciding our environmental future.

My Government also is committed to helping individuals become more active in protecting their environment. Through our waste management and recycling programs, the development and use of environmentally friendly products and environmental workshops for teachers, students, and the general public, my Government will encourage greater awareness and understanding of the role individual Albertans have to play in protecting our province. Together Albertans and my Government must demonstrate a clear and strong commitment to protect our magnificent province for the present and future well-being of all Albertans.

The Social Challenge

Working with Albertans, my Government will remain committed to meeting the social needs of Albertans. Our aging population, the changing nature of families, and limited resources all contribute to this challenge.

Enabling Albertans to improve the quality of life through better health and providing Albertans with equal opportunity to attain and maintain good health continue to be a goal of my Government. In addressing this priority, my Government will focus on managing health resources more effectively and efficiently to ensure that our system remains affordable and sustainable. In providing prevention, treatment, rehabilitation, and support services, my Government will continue to develop an acute care funding plan, establish an Alberta family life and drug abuse foundation, and respond further to the recommendations of the Premier's Commission on Future Health Care for Albertans.

Alberta's social strength is more than the health of Albertans. In addressing the social challenges we face, my Government must work with Albertans to strengthen the family, bolster volunteers, care for our seniors, prevent violence in and out of the home, provide for recreational and cultural opportunities, encourage independence and dignity for all Albertans, and allow for the full expression of our ethnic, cultural, linguistic, and religious diversity. Stability and choice and freedom are the foundations of society in Alberta, and my Government will continue in its efforts to keep the foundations strong.

Education will continue to be a top priority for my Government. The greatest cause we can have is to prepare young Albertans for the challenges they will face as adults. My Government will assist Albertans in helping our children prepare by developing a new vision for education, continuing to provide equal opportunities for students throughout the province, and introducing tuition policies that reflect the evolving needs of our advanced education system.

The Constitutional Challenge

The constitutional challenges, those of deciding what Alberta's future in Canada will be, are as important as any my Government and Albertans face. Nowhere is the co-operation, commitment, and consensus of Albertans more required than on this issue; the future of our province and Canada is at stake. The issues — language, our political institutions, the division of responsibilities, our fundamental rights and freedoms, the future of our aboriginal peoples, and the very nature of our Federal system — are more compelling now than they have ever been. Canada has changed, and Albertans will have to decide what Alberta in a new Canada will be.

My Government has already begun the task of seeking the views of Albertans on the key constitutional questions facing the province and the country. My Government has sought to encourage dialogue through the release of a discussion paper entitled *Alberta in a New Canada*. It is my Government's intention to establish a select special committee of the Legislature to conduct public hearings on our constitutional future. Through the work of the select committee my Government will ensure that Albertans have full opportunity to participate directly in determining our province's future.

My Government's responsibility is to use the instruments of democracy Albertans have entrusted to us to develop a plan to address the challenges I have outlined today. My Government has that plan to provide for stability amidst change.

In addition, during this session my Government will

- establish a Conference on the Economy to review and renew our economic plan for the next decade,
- reintroduce the Loans and Trust Company Act,
- introduce a new Municipal Government Act,
- introduce legislation to promote local self-government in improvement districts throughout Alberta,
- participate in the North American Waterfowl Plan,
- continue to negotiate Treaty land entitlement claims,
- establish the Foundations for Adult Learning and Development Policy,
- implement a number of recommendations of the Action Plan of the Premier's Council on the Status of Persons with Disabilities,
- establish a single agency to provide for the granting of lottery funds to the arts,
- amend the School Act to recognize minority language education rights,
- amend the Legislative Assembly Act to include certain recommendations from the Conflict of Interest Review Panel report — an Ethics Commissioner will be established — and
- introduce other legislation, programs, and fiscal measures for consideration and deliberation in this House.

There are many jobs left to do. My Government's cause is to make a difference in a different and changing world. My Government cares about the well-being of our free society and for this beautiful land we share. The land has shaped Albertans and been shaped by Albertans. The prairies, the foothills, the forests, streams, and lakes have shaped a people of freedom, independence, and pride, a people with beliefs and values that mean greatness for Alberta and opportunity and dignity for each and every Albertan.

In due course you will be presented with budget estimates. You will be asked to authorize the necessary funds for operating services and expenditures and to endorse a program of capital financing for the Government of Alberta. You represent a beautiful province of strength, hope, and promise.

And now I leave you to the business of this session, confident that as elected representatives you will in every way fulfill your responsibilities to Albertans.

Mr. Speaker and Members of the Legislative Assembly, I pray that the blessing of God may rest upon your deliberations. God bless Alberta. God save the Queen.

His Honour the Honourable the Lieutenant Governor then retired from the Assembly.

The Speaker took the Chair at 10:00 a.m.

ROUTINE

Statement by the Speaker

The Speaker made the following statement:

On the desks of all Hon. Members there should be a letter dated March 15, 1991, from myself which deals with the matters of parliamentary practice, Question Period, the Order Paper, and introductions. With the indulgence of the House, I would read just one portion of that which relates to Question Period.

The Chair has taken note of the increasing length of the preamble to questions during Question Period. A random review of Hansard indicates that six-sentence, 125-word preambles often precede the actual question, with some preambles reaching eight sentences and 160 words. Although Beauchesne clearly indicates that supplementary questions should need no preamble, Hansard again indicates preambles to supplementary questions running to four sentences and 70 words, no matter how quickly they're spoken. In order to preclude intervention by the Chair this session, the Chair would request that all members familiarize themselves with Beauchesne 409, with particular emphasis on 409(2), which reads, and I quote:

The question must be brief. A preamble need not exceed one carefully drawn sentence. A long preamble on a long question takes an unfair share of time and provokes the same sort of reply. A supplementary question should need no preamble.

In addition, the Chair would remind Hon. Ministers that the replies should be as brief as possible.

Commonwealth Day Message

The Speaker commented on the Commonwealth Day Message, dated March 11, 1991, distributed to all Members.

Notices of Motions

Mr. Lund, Hon. Member for Rocky Mountain House, gave oral notice of his intention to move the following motion under Standing Order 40 on Orders of the Day:

Mr. Decore, Hon. Leader of the Liberal Party, gave oral notice of his intention to move the following motion under Standing Order 40 on Orders of the Day:

Be it resolved that when the Government motion for consideration of His Honour the Lieutenant Governor's speech is called for debate that the Speaker put the question forthwith and that the House Leaders be directed to convene an emergency meeting to determine a method of using the Assembly's time to deal with the urgent and pressing matters of the provincial deficit, the state of the province's education and health care systems, and the lack of action by the current Government.

Statement by the Speaker

The Speaker delivered the following statement:

A reading of Standing Order 23(c) reveals a direct instruction that matters once dealt with cannot be re-introduced, to be repeated in the House again and again.

S.O. 23(c):

A member will be called to order by Mr. Speaker if that member persists in needless repetition or raises matters which have been decided during the current session.

However, an examination of Standing Order 43(1)(b) would seem to indicate an instruction that a Written Question which was not accepted can be re-introduced

immediately after its removal from the Order Paper, possibly to be dealt with again and again throughout the Session.

S.O. 43(1)(b):

A written question that is not accepted or notice of motion that is not taken up when called may be renewed if it has been so removed from the Order Paper.

Faced with this apparent contradiction between Standing Order 23 and Standing Order 43, the Chair consulted Beauchesne, Erskine May, previous issues of our Standing Orders, and other parliamentary sources in an attempt to resolve the problem.

The Chair has found references which support the practice that a matter cannot be re-introduced if already dealt with. The specific references are: Beauchesne 428(d), 558, and Erskine May, page 292.

Beauchesne 428(d):

A question must not repeat in substance a question already answered, or to which an answer has been refused.

Beauchesne 558:

That a question being once made and carried in the affirmative or negative, cannot be questioned again but must stand as the judgment of the House.

Erskine May page 292:

Questions are not in order which renew or repeat in substance questions already answered or to which an answer has been refused or which fall within a class of question which a Minister has refused to answer.

No support for the practice as it appears to be stated in Standing Order 43(1)(b) could be found by the Chair or the Table in other jurisdictions. The prohibition against re-introduction of matters already dealt with seems to be universally applied.

What then is the intention of Standing Order 43(1)(b)? The Chair points out that our own Standing Orders between 1928 and 1984 inclusive contained the following Standing Order:

A written question or notice of motion that is not taken up when called

- (a) shall be removed from the Order Paper unless the Assembly, by order without debate, allows it to stand and retain its precedence on the Order Paper, and
- (b) may be renewed if it has been so removed from the Order Paper.

Therefore, it would appear that a transcription error occurred during the last revision of our Standing Orders resulting in the conflict in our current Standing Orders.

If we replace the words "not accepted" with the words "not taken up," to use the actual quotation appearing within Standing Order 43 itself, the Standing Order does not then contradict Standing Order 23. Standing Order 43 then becomes consistent with other Standing Orders, similar rules in other jurisdictions, the House of Commons' Standing Order 42, and the practice of this House between 1928 and 1984.

To adhere to the spirit and intent of matters once dealt with by the House not being re-introduced and to maintain consistency with other parliamentary jurisdictions and sources, the Chair is confident that the intent of Standing Order 43 is: when a Written Question is not taken up - that is, not accepted, refused or ordered to stand and retain its place -- then it is dropped from the Order Paper. Only in these circumstances can the dropped question be renewed.

As Beauchesne 428(d) cites:

A question must not repeat in substance a question already answered, or to which an answer has been refused.

and Erskine May 292:

Questions are not in order which renew or repeat in substance questions already answered or to which an answer has been refused or which fall within a class of question which a Minister has refused to answer.

Therefore, the Chair rules that Standing Order 23(c) must prevail against Standing Order 43(1)(b) and matters once dealt with by the House cannot be re-introduced in the same Session.

Now, the Chair also would point out that with respect to Written Questions, there's a citation in Beauchesne 425. I'm sure Members on both sides of the House will be interested but not necessarily terribly happy about what it says. I emphasize this is not in our Standing Orders.

Members may place a maximum of four written questions on the Order Paper at any one time, and may, by so indicating at the time of filing the question, request that the Ministry respond to a specific question within forty-five days.

Now, the Chair raises this because of our overloaded Order Paper. It's not meant to inhibit the rights of any Members, but it's just pointing out the practice which takes place in the Federal House.

The Chair also goes on to point out that in this particular House the matter of repetition especially within Question Period is very difficult to enforce, but with regard to Written Questions the ruling which has been handed down now is necessary for the operation of this particular House. Thank you for your attention.

Speaker's Ruling

The Speaker made the following ruling:

Yesterday the Hon. Member for Edmonton-Highlands raised a purported point of privilege relating to the Chairman's recognition of the Member for Calgary-Forest Lawn in Committee of Supply on the evening of April 9.

In essence, the Member for Edmonton-Highlands complained that the Chairman's failure to allow the Member for Calgary-Forest Lawn to speak, as he was the only Member standing at the time, breached the privileges of the Member for Calgary-Forest Lawn by impairing that Member in the execution of his parliamentary functions.

The Chair reviewed Hansard and spoke to the Chairman, Deputy Chairman, and Acting Chairman of Committees in order to determine what transpired that evening. There was debate on the estimates, with various participants speaking as per the list provided. There were also two procedural motions introduced with various Members speaking to these motions. At one point a heated exchange took place between the Chairman and the Member for Edmonton-Highlands.

Although the Member for Calgary-Forest Lawn was standing, the Chairman recognized, per the speaking list provided, the Member for Ponoka-Rimbey. As the Member for Ponoka-Rimbey was not in the House at that moment, the Chairman recognized, as is the custom, the Minister of Advanced Education in reply to the Member for Calgary-McKnight. The Member for Ponoka-Rimbey was then recognized, followed by the Member for Calgary-Forest Lawn, who then spoke.

The Chair would direct all Members to the fact that privilege is a very serious matter involving, in the case of an individual Member, that Member's ability to function independent of any outside interference.

What happened in Committee of Supply appears to the Chair to have been contained within the Committee itself and was in reality a dispute between the Chairman and certain Members about speaking lists and rules of order for the functioning of the Committee.

In the course of the evening the Member for Calgary-Forest Lawn was called upon by the Chairman to speak shortly after the exchange with the Member for Edmonton-Highlands and that Member -- namely, the Member for Calgary-Forest Lawn -- did speak. Therefore, it does not appear that the Member for Calgary-Forest Lawn was prevented in raising his concerns with regard to the estimates.

The Chair finds the Member for Edmonton-Highlands' complaint to be one of order in the Committee, on which the Speaker cannot rule. Our Standing Order 62(3) states clearly that points of order raised in Committee must be dealt with in Committee. In accordance with Standing Order 15, no prima facie case of breach of privilege has been established, because the Member for Calgary-Forest Lawn was only delayed from speaking rather than denied the right to speak, pursuant to the Chairman's control of the list of speakers in debate.

The Chair wishes to advise Edmonton-Highlands that although the notice on the point of privilege was received in accordance with Standing Order 15(2) -- namely; the two-hour notice before the House -- it was partially defective in form.

Standing Order 15(2) states:

A member wishing to raise a question of privilege shall give a written notice containing a brief statement of the question to Mr. Speaker and, if practicable, to any person whose conduct may be called in question, at least two hours before the opening of the sitting, and before the Orders of the Day are called, shall call attention to the alleged breach of privilege and give a brief statement of the nature of the matter which founds the complaint.

As the Chair mentioned, this was only partially defective; nevertheless, it was a point of order that should have been dealt with in Committee. Thank you.

Motion for Adjournment for an Emergency Debate

Mr. Bruseker, Hon. Member for Calgary-North West, requested leave to move, pursuant to Standing Order 30, that the Assembly adjourn to discuss a matter of urgent public importance, namely the closure of the Magnesium Company of Canada plant in Southern Alberta and the need for an immediate moratorium on business subsidy programs until a complete independent review of the decision making process of loans and guarantees is completed.

The Speaker ruled that the request for leave was not in order.

Speaker's Ruling

The Speaker made the following ruling:

Before we proceed with Question Period today the Chair would like to review for the benefit of all Hon. Members the practice and precedents of this House with respect to the rule of anticipation.

Specific references on anticipation can be found in Standing Order 23(e) which reads:

A member will be called to order by Mr. Speaker if that member

- (e) anticipates contrary to good parliamentary practice, any matter already on the Order Paper or on notice for consideration.

and Beauchesne 513(1) reads:

In determining whether a discussion is out of order on the grounds of anticipation, the Speaker must have regard to the probability of the matter anticipated being brought before the House within a reasonable time.

and Beauchesne 708 reads:

The House is not supposed to be informed of the proceedings of a committee on a bill until the bill has been reported; discussion of the clauses, with the Speaker in the Chair, when the bill is still before the committee, is consequently irregular.

A review of Hansard of April 19, 1988, and June 15, 1989, indicates that the Chair has, on a yearly basis, made a statement to the House with respect to anticipation. Since last Wednesday, the issue has again been before this House on three separate occasions.

As stated in the House yesterday, the Chair has attempted during this and prior years to determine if there is some way to be able to allow some questions to proceed. It is apparent that the most practical way to deal with anticipation during Question Period when estimates are before the House is to rule that no questions will be allowed with respect to the Ministry whose estimates will be called on that day.

With respect to Bills and Motions the Chair's ruling of June 15, 1989 stated:

... questions can be developed and not ruled out of order if a Bill has been introduced in the Assembly. "Once the Bills reach second reading stage, then they're going to be ruled out of order in terms of question period." Questions developed after a Bill's introduction should not be detailed and should relate to the general policy rather than a clause-by-clause examination of the Bill. If this occurs in question period, these questions will be ruled out of order.

This will remain the practice of the House. Thank you, Hon. Members.

ORDERS OF THE DAY

Government Bills and Orders

Statement by the Speaker

The Speaker made the following statement:

Hon. Members, earlier today at the conclusion of Question Period, while dealing with a Standing Order 40 request by the Member for Edmonton-Mill Woods and after the House denied unanimous consent for the matter to proceed, there was an unfortunate incident in the House. The Member for Westlock-Sturgeon made at least eight interruptions of the House and was heard to comment on the way

out of the House. On a personal basis he's entitled to his opinion, but in terms of the House, he is not.

The comment was made that I, being the Speaker, am "one of the crappiest Speakers I've ever seen." This is a rather gross breach of the parliamentary tradition. The Chair mentions it because immediately following the Member being named and after the Speaker conversed with the House Leader for the Liberal Party, the Member for Edmonton-Gold Bar, the matter was communicated to that particular Member in her capacity as House Leader that the Member had been named for the balance of this day and, therefore, cannot be in the Chamber or its immediate environs and that an apology is due the Chair and this House not only for unparliamentary language but also for making the comments. Hopefully, that might transpire tomorrow.

The Chair feels constrained that Beauchesne 167 must be quoted, which reads:

The essential ingredient of the speakership is found in the status of the Speaker as a servant of the House. The Presiding Officer, while but a servant of the House, is entitled on all occasions to be treated with the greatest attention and respect by the individual Members because the office embodies the power, dignity, and honour of the House itself.

Also, in Beauchesne 168 we have this:

When rising to preserve order or to give a ruling, the Speaker must always be heard in silence. No Member may rise when the Speaker is standing. Reflections upon the character or actions of the Speaker may be punished as breaches of privilege.

In Beauchesne 171:

Foremost among many responsibilities, the Speaker has the duty to maintain an orderly conduct of debate by repressing disorder when it arises.

The last quote is from Beauchesne 192:

On several occasions Speakers have refused to hear Members who have, in the opinion of the Chair, exceeded the bounds of orderly conduct.

So the Chair informs the House that until such time as an apology is given back to this House, an apology to the Chair, the Hon. Member for Westlock-Sturgeon will not be recognized in Question Period.
