33	<p>Be it resolved that the Legislative Assembly of Alberta consistent with its commitment to protecting Alberta's environment hereby endorses and accepts the following principles agreed to by all provinces and territories on October 28, 2002 to provide the basis for the development of a national climate change action plan:</p> <ol style="list-style-type: none"> 1. All Canadians must have an opportunity for full and informed input into the development of the plan. 2. The plan must ensure that no region or jurisdiction shall be asked to bear an unreasonable share of the burden and no industry, sector or region shall be treated unfairly. The costs and impacts on individuals, businesses and industries must be clear, reasonable, achievable, and economically sustainable. The plan must incorporate appropriate federally funded mitigation of the adverse impacts of climate change initiatives. 3. The plan must respect provincial and territorial jurisdiction. 4. The plan must include recognition of real emission reductions that have been achieved since 1990 or will be achieved thereafter. 5. The plan must provide for bilateral or multilateral agreements between provinces and territories, and with the Federal Government. 6. The plan must ensure that no province or territory bears the financial risk of federal climate change commitments. 7. The plan must recognize that benefits from assets such as forest and agricultural sinks must accrue to the province and territory which owns the assets. 8. The plan must support innovation and new technology. 9. The plan must maintain the economic competitiveness of Canadian business and industry. 10. Canada must continue to demand recognition of clean energy exports. 11. The plan must include incentives for all citizens, communities, businesses and jurisdictions to make the shift to an economy based on renewable and other clean energy, lower emissions and sustainable practices across sectors. 12. The implementation of any climate change plan must include an incentive and allocation system that supports lower carbon emission sources of energy such as hydroelectricity, wind power generation, ethanol, and renewable and other clean sources of energy. <p>And be it further resolved that this Assembly, in the absence of agreement on a national plan by provinces and territories, denounces any unilateral ratification by the Federal Government of the Kyoto Protocol in violation of the principles on constitutional law, convention, federalism, and long established practice whereby the Federal Government must adequately consult with and seek the consent of provinces and territories prior to ratification of international treaties or agreements that affect matters of exclusive provincial or territorial jurisdiction, or that require provincial or territorial actions or legislation to achieve implementation where implementation will result in significant harm to the economy of Alberta and of Canada.</p>	Hon. Mr. Jonson	November 27, 2002	Agreed to
34	<p>Be it resolved that, when the Assembly adjourns to recess the Fall Sitting of the 2nd Session of the 25th Legislature, it shall stand adjourned until a time and date as determined by the Speaker, after consultation with the Lieutenant Governor in Council.</p>	Hon. Mr. Hancock	December 4, 2002	Agreed to
