May 11, 2009.....	<u>HE307-29</u>
May 13, 2009.....	<u>HE331-37</u>
May 20, 2009.....	<u>HE339-55</u>

Guide to the Index for Standing Committee on Health

The index for the transcripts of meetings of the Standing Committee on Health is in two parts: a subject index and a speaker index.

In the **subject** index, the main entry is a subject heading that may be followed by:

- subentries, arranged alphabetically, which reflect how the discussion of topics broke down
- see/see also references, to related topics
- names of committee members or presenters who spoke on that topic, and the page numbers where the discussion may be found.

In the **speaker** index, the main entry is a committee member's or presenter's name followed by the topics spoken on by that person.

Departmental Estimates Review

The committee's first task was to review the estimates for each of the three departments in its mandate, those being the departments of Seniors and Community Supports; Health and Wellness; and Children and Youth Services.

To locate the estimates, look under the main heading for the name of the department, and then the subentry 'Estimates, 2009-10, debated'. Under that subentry, the minister's name will give the page range where debate took place.

Health Information Amendment Act, 2009 (Bill 52, 2009) Review

The committee's next task was to continue the review of the Health Information Act. The review started during the 2008 session with the referral of the **Health Information Amendment Act, 2008 (Bill 52, 2008)** to the committee. The review was not completed that session, however, and was referred to the committee again during the 2009 session as the **Health Information Amendment Act, 2009 (Bill 52, 2009)**. The Bill's number and content was the same in both sessions.

For purposes of index headings, the 2009 Bill title is used.

To locate general information about the review go to **Health Information Amendment Act, 2009 (Bill 52, 2009)—Review**.

To locate information about oral and written submissions on the review go to **Health Information Amendment Act, 2009 (Bill 52, 2009)—Review (Oral/written submissions on)**.

To locate information about the final report go to **Health Information Amendment Act, 2009 (Bill 52, 2009)—Review (Final report on)**.

To locate main entries for the recommendations in the final report and for discussions of other issues considered by the committee, go to **Health Information Amendment Act, 2009 (Bill 52, 2009)—Review (Recommendations and issues considered)**.

a) Public meetings of the committee

The committee also held public meetings concerning Bill 52, during which presentations were made on topics related to the mandate of the committee.

To locate information about the public meetings and inquiries, go to **Committee on Health, Standing—Public meetings and inquiries**.

To locate the names of presenters at the public meetings and inquiries, go to **Committee on Health, Standing—Public meetings and inquiries (Presentations received during)**.

b) Special handling of subentries under main headings

- **‘Overview of’** subentries provide page numbers where an introduction to the review issue reflected in the main heading may be found.

c) Submissions to the committee

To find information about written submissions and oral presentations to the committee on a main heading topic, look for subheadings that begin with **‘Oral presentation re’** and **‘Written submission re’**.

Abbreviations

The most commonly used abbreviations in the index are as follows:

AMA	Alberta Medical Association
DHW	Department of Health and Wellness
HIA	Health Information Act
HIAA	Health Information Amendment Act, 2009 (Bill 52, 2009)
PIA	Privacy impact assessment

For abbreviations not included in the above list, look the abbreviation up alphabetically to find its full form.
